Hartford, CT [REDACTED]

Dear Governor Malloy:

My name is [REDACTED]. I am a fourth grade student at [REDACTED] School. We are working on a Social Studies project and I chose your state.

I was wondering if you could answer some questions I have about your state. Since you invented the first tackling dummy, did football start in your state? What is your favorite thing about Connecticut?

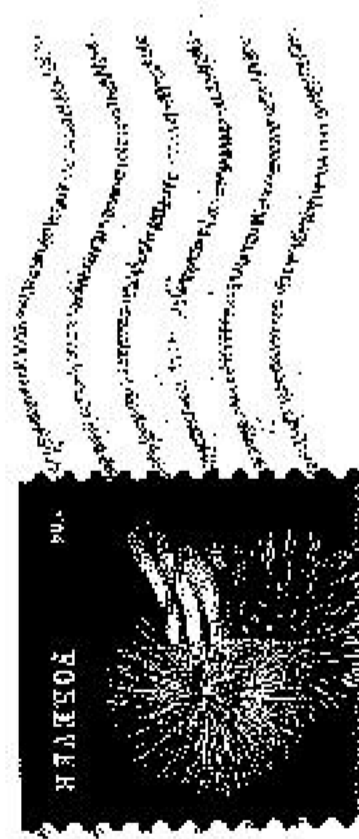

Thank you for taking the time to read this letter. Please send a response or any other information to the address above.

Sincerely,

[REDACTED]
