

| Governor Mallory, |
|--|
| I am writing on behalf of my brother |
| incarcerated for just about a year at see Institution. He is |
| looking to get an early parole. It is willing to go to a transfer and |
| (or) wear a GPS bracelet, willing to take any classes that he would need or |
| community service. is under medical care for his heart. He has a chip in |
| his chest and has to be monitored every day. The doctor said that he needs a pacemaker. He is on medications. He is also on medication for PTSD. He lost |
| his daughter when she was seven years old in a car accident in His |
| family is suffering. He has a fifteen year old son that is having a very difficult |
| time in school and he is on anti-depression medication. He has two |
| grandchildren that cry all the time for him. The two children live with their |
| grandmother, because their mother is going through a rough time. |
| mother is not well, she is on dialysis, she is She is so worried that she will |
| die before he gets out. It has taken a lot out of her because of being in |
| jail. I really think that has done a lot of thinking while he has been in |
| there and understands what mistakes he has made and realizes that he needs to get his life back on track and be there for his mother, son and |
| grandchildren and be a better person. He has not gotten in any trouble while incarcerated, he gets along well with all the guards there and he helps the |
| guys that are disabled. I think that could a second chance. Thank you |
| for hearing me out. |
| Sincerely, |
| |
| |
