"Building [Redacted] Through Writing"

[Redacted]

Dear Letter Receiver,

You have been selected to receive this letter from fourth and fifth [Redacted] students as part of a [Redacted] [Redacted] [Redacted] [Redacted] [Redacted] for [Redacted]. This [Redacted] has allowed us the opportunity to provide our students with the working knowledge, skills, and perspectives needed to become active, informed citizens, and contributing members of their local community. These students have worked very hard researching your contributions and are excited to formally invite you to come and speak with them.

Our goal for this [Redacted] is for students to expand outside of the [Redacted] walls and fully experience their community. This has allowed them to experience a hands-on approach to generating multiple perspectives, to understanding values of diversity, and overall having an opportunity to recognize the implications and contributions needed to interconnect our [Redacted] with the global world.

Both Title I Schools, fifth [Redacted] students at [Redacted] [Redacted] and fourth [Redacted] students at [Redacted] [Redacted] School have joined together as [Redacted] pals to make this mission possible. Students want to recognize faces and names they come across daily on the Internet and in local newspapers. The faces that make a difference to our students will become recognizable to [Redacted] a [Redacted] that is approachable and cares for the concerns of citizens, even at [Redacted]. We want our students to know their ideas, concerns and perspectives have meaning and purpose.

We thank you for your [Redacted] and dedication to our [Redacted] and to our state! Our students hope to hear back from you!

Please RSVP to Ms. [Redacted] at [Redacted] or call [Redacted] [Redacted] by [Redacted] 31st. We are looking for guest speakers for [Redacted] [Redacted] at [Redacted] [Redacted] School where both classes will join together!

Best Regards,
Ms. [Redacted]

Dear Governor Malloy,

My ██████████ and I were researching you and ██████████ that your position is very important and influential. We wanted to ask you a few questions. Is working for the government hard? Because it seems like it would be because you have to because you have to help ██████████ grow and shape itself by making sure that everything stays in order and that you will help us even when times are bad. I heard that you will help us pull through and get through any problems no matter what the situation is. You also help me make sure everyone has everything fair and you help us and the economy shape America the way it is.
