**sSB 565****AN ACT CONCERNING CONTINUING EDUCATION FOR PLUMBERS.****SUMMARY:**

This bill limits the number of hours of continuing education that Department of Consumer Protection (DCP) regulations may require of plumbers to seven every two years. If there are significant changes to the building code that relate to plumbing, the bill allows the DCP commissioner to increase the requirement. By law, the DCP commissioner may adopt regulations to establish requirements for accredited continuing professional education for plumbers and qualifying criteria for accredited continuing professional education programs.

The bill exempts holders of P-6, P-7, W-8, and W-9 plumbing and piping work licenses from meeting continuing education requirements.

EFFECTIVE DATE: Upon passage

**BACKGROUND*****Continuing Education Requirements***

DCP regulations require unlimited plumbing contractors to take six hours of continuing education every year and limited contractors and unlimited journeymen to take three hours every year. The regulations identify the following areas of study as "acceptable": licensing or business law related to plumbing, the current State Building Code related to plumbing, and any area recommended by the Plumbing and Piping Work Board (Conn. Agencies Reg. § 20-344d-1).
