April 8, 1969

Page 1

The Senate was called to order at 2:22 P.M., the President in the Chair.

The prayer was offered by Father Speer. The following is the prayer:

Almighty God look with favor upon your people who in this joyful season commemorate the miraculous delivery of your chosen race from the power of your enemies and the glorious resurrection of your only begotten Son. Grant that those who have gathered together to make laws that will provide for the future of our state may be delivered from the enemies of freedom and equality and offer all of our citizens a rebirth to a new era of prosperity, peace and equal opportunity regardless of race or religious belief. Amen.

SENATOR BUCKLEY:

Mr. President, I rise for a point of personal privilege. I would like to introduce a class, in the East Gallery, a class of 96 children and nine adults from the 7th grade at the Elizabeth Shelton School of Shelton, Conn. If the class would rise I'm sure the Senate will give them its usual welcome.

SENATOR MARCUS:

Mr. President, may the Clerk read in favorables and changes of reference. Will the Democratic Senators meet in the Lt. Governors' office.

AFTER RECESS

The Senate was called to order, after recess, at 4:37 P.M., The President in the Chair.

HOUSE JOINT RESOLUTION NO. 186. Resolution Naming the Regional Retardation Center in Putnam in Honor of Governor John N. Dempsey
RESOLVED BY THIS ASSEMBLY:

April 8, 1969

Page 10

SENATOR DUPONT: I move for suspension of rules for immediate consideration of the resolution.

THE CHAIR: If there is no objection, the rules will be suspended.

RESOLVED BY THIS ASSEMBLY:

WHEREAS, Governor John N. Dempsey has contributed to the economic, cultural, social, industrial and physical growth of the City of Putnam, while serving as Alderman, Mayor and then as Lieutenant Governor and Governor of the State of Connecticut;

WHEREAS, he was instrumental in establishing the Putnam Regional Center for the mentally retarded; and

WHEREAS, it is both fitting and proper to recognize the long and meritorious service of John N. Dempsey to the City of Putnam and the State of Connecticut.

NOW, THEREFORE, BE IT RESOLVED, that the Putnam regional retardation center be name the John N. Dempsey Mental Retardation Center.

BE IT FURTHER RESOLVED, that the clerks of the House and Senate cause a copy of this resolution to be sent to Governor John N. Dempsey as a sincere expression of the high esteem in which he is held.

SENATOR DUPONT:

I move the adoption of the resolution. Mr. President, it's with a great sense of pride that I arise in support of this

April 8, 1969

Page 11

resolution. Pride, in fact, that this resolution tries in a special way, to honor, the greatest public servant to ever come from the 29th District. I need not remind, this circle, of this man's service to the people of Putnam and the State of Connecticut. The service that began when he was a young man of 21 years of age and first elected to the City Council of Putnam. Service that continued in the State Legislature, as Mayor of the City of Putnam, Lt. Governor of the State of Connecticut and presently Governor of Connecticut.

This resolution, I believe, is especially appropriate since our Governor has always been extremely interested in humane programs. The support that Governor Dempsey has given the program on mental retardation both in Putnam and throughout the State is one of genuine interest and certainly not one motivated by politics. This resolution, I feel, serves honor to the City of Putnam as well as our Governor. I know the people of that City are most proud of this great Leader and great Governor. It is certainly appropriate since Governor Dempsey was instrumental in establishing this center. I urge adoption.

SENATOR HULL:

Mr. President, this is a fitting honor for a man whom we all admire and respect very much.

THE CHAIR:

Any further remarks? If not, as many of you who are in favor will signify by saying, "aye". Opposed? Adopted.

HOUSE JOINT RESOLUTION NO. 187. Resolution Expressing Sympathy on the Death of Louis P. Faucher.

SENATOR DUPONT:

Mr. President, I move suspension of the rules for immediate consideration of the resolution.

THE CHAIR:

If there are no objections, rules will be suspended.

THE CLERK:

RESOLVED BY THIS ASSEMBLY:

WHEREAS, we were all saddened to learn of the death of a colleague, former Rep. Louis P. Faucher, eighty-two, who lived in North Grosvenor Dale for most of his life; and

WHEREAS, he was the founder of Superior Bread Bakery; North Grosvenor Dale, having established the bakery in 1920; and

WHEREAS, he served in the legislature as a representative from 1936 to 1940; and

WHEREAS, he was a member of St. Jean Baptiste Society of North Grosvenor Dale, artisans, St. Bernard Council of the Knights of Columbus, Putnam Lodge of Elks and the Putnam Rotary Club;

NOW, THEREFORE, BE IT RESOLVED, that the members of this assembly unite in expressing their sympathy to the family of Louis P. Faucher; and

BE IT FURTHER RESOLVED, that the clerks of the House and Senate cause a copy of this resolution to be sent to the family of Louis P. Faucher.

April 8, 1969

Page 13

SENATOR DUPONT:

Mr. President, I move for the adoption of this resolution. Louis P. Faucher as the resolution sets forth, was a former representative from 1936 to 1940 as well as an outstanding leader for many years in the Town of Tolland. For this reason I feel this is a tribute to the memory of the man. I urge passage

THE CHAIR:

Will you remark further? If not, all those in favor signify by saying, "aye". Contrary minded? Resolution is adopted.

THE CLERK:

BUSINESS FROM THE HOUSE: DISAGREEING ACTION. Tabled for Calendar

ELECTIONS: SUBSTITUTE FOR SENATE BILL NO. 616. An Act concerning Absentee Voting. (as Amended).

SENATOR BUCKLEY

Mr. President, I move that the following Calendar Numbers be retained on the Calendar. Cal. Nos. 111, 153, 192, 193, 194, 195, 196, 197, 198, 218, 234, 237, 243, 245, 246, 249, 250, 254, 255, 256, 260, 270, 271, 273, 272, 274, 275, 276, 277, 278, 279, 280, 282, 283, 285, 286, 287 and 288, may 124 be placed at the foot.

CAL. NO. 162. File No. 133. Senate Bill No. 1340. An Act concerning Reinstating the Corporate Existence of American Radionic Co., Inc.

SENATOR HULL:

I move acceptance of the committee's favorable report and passage of the bill.

April 8, 1969

Page 14

This bill would allow the reinstatement and validation of the act of the American Radionic Co. of Danbury. This is a growing concern which through the mistaken efforts of an employee some years ago, failed to file two annual reports and all of these years has been acting as a corporation and was not a corporation. It is now involved in merging negotiations which will beneficially affect the company, its employees but will not be able to proceed unless this bill is passed.

THE CHAIR:

Question is on passage, will you remarks? As many who are in favor signify by saying, "aye". Opposed? Bill is passed.

CLERK:

CAL. NO. 242. File No. 80. Modified House Bill No. 6598. An Act concerning Hunting of Deer.

SENATOR BUCKLEY:

Mr. President, I move acceptance of the committee's favorable report and passage of the bill. Mr. President, I beg your indulgence, this is not my bill and I've been asked to report it out and I will read a very short statement. This measure removes the licensing of records from those persons authorized to kill deer through the entire year with rifle or shot gun without regard for the number of deer killed. Section 2 increases from 2 to 5 the number of permits the landowner may authorize the privilege of hunting deer with a shot gun during the month of December, while the number of such permits that any individual may obtain is reduced to 5 to 3.

April 8, 1969

Page 15

This measure provides for greater participation in deer hunting in non-land owning sportsman with final control vested in the landowner.

THE CHAIR:

Will you remark further? As many who are in favor will signify by saying, "aye". Opposed? The bill is passed.

CAL. NO. 251. FILE NO. 192. Substitute for Senate Bill No. 251 An Act concerning Presumption of Abandonment of Certain Funds or Property as Affected by Periods of Limitation.

SENATOR VERRIKER:

Mr. President, I move acceptance of the committee's favorable report and passage of the bill.

This bill provides that that the expiration of time provided by the statutes of Limitation will not prevent money or property owned to a Connecticut resident by virtue of contract with Insurance Companies from being presumed abandoned property so as to askew of the State. It is a good bill and I urge passage.

THE CHAIR:

Question is on passage, will you remark? All those in favor signify by saying, "aye". Opposed? Bill is passed.

CAL. NO. 252. FILE NO. 193. Senate bill No. 257. An Act concerning Escheat of Funds in the Possession of Federal Agencies.

SENATOR VERRIKER:

I move acceptance of the committee's favorable report and passage of the bill. This bill provides for seizure of the escheat and recovery of funds by Federal Agencies to the State

of Connecticut. The Joint Finance Committee feels the bill ought to pass.

THE CHAIR:

Question is on passage, will you remark further? If not, all who are in favor will signify by saying, "aye". Contrary minded? The bill is passed.

CAL. NO. 257. FILE NO. 198. Committee Bill No. 1526. An Act concerning the Filing of Annual Reports by Foreign Stock Corporations.

SENATOR DINIELLI:

Mr. President, I move acceptance of the Joint Committee's Favorable report and passage of the bill. This bill eliminates the requirement of the Secretary of State send a copy of Foreign Corporations Annual reports to the Town Clerk and inlieu thereof, an alphabetical list of names will be sent together with a filing fee of one dollar. Move adoption.

THE CHAIR:

Question is on passage? As many who are in favor will signify by saying, "aye". Contrary minded? Bill is passed.

CAL. NO. 258 FILE NO. 199 Committee Bill No. 1527. An Act concerning the Filing of Annual Reports by Stock Corporations.

SENATOR DINIELLI:

I move acceptance of the Joint Committee's favorable report and passage of the bill. The same remarks hold true in this bill except that it only applies to a Domestic Stock Corporation.

THE CHAIR:

Will you remark further? If no, as many who are in favor signify by saying, "aye". Contrary minded? Bill is passed.
CAL. NO. 260. FILE NO. 205. Substitute for Senate Bill No. 147
An Act Providing for Hunting and Fishing on Water Supply Res-
ervoirs.

SENATOR HOULEY: Mr. President, I move acceptance of the committee's favorable report and passage of the bill. This is just a change in terminology to correspond with the U.S. Department of Agriculture. It also allows the Commissioner of Agriculture to assign a time factor in which such investigations can be controlled. I urge adoption.

THE CHAIR: Question is on passage? As many who are in favor signify by saying, "aye". Contrary minded? Bill is passed.
CAL. NO. 268. FILE NO. 102. House Bill No. 5528. An Act concerning (Registration of Growers of Swine) The Control of Disease in Swine.

SENATOR HOULEY: Mr. President, I move acceptance of the Committee's favorable report and passage of the bill. The Federal Government has outlawed the Interstate shipment of live virus vaccine. This measure simply revises the Connecticut statutes to conform with the Federal regulations. I urge passage.

April 8, 1969

THE CHAIR:

Will you remark further? If not, as many who are in favor signify by saying, "aye". Contrary minded? Bill is passed.

CAL. NO. 269. FILE NO. 143. Modified House Bill No. 5793. An act concerning Definitions of Milk and Milk Products.

SENATOR HOULEY: *Connecticut College for Women and Connecticut*

Mr. President, I move acceptance of the committee's favorable report and passage of this bill. The continual progress through research has created new products in milk and milk products industry. Some of which we might not think of as being milk products. This measure simply redefines milk and milk products by regulation rather than by statute. I urge passage.

CAL. NO. 281. FILE NO. 87 Favorable report of the Joint Committee on Finance. Substitute for House Bill No. 5041. An Act concerning the Interest Rate on Unpaid Property Taxes.

SENATOR VERRIKER: *Instruction of Unlicensed Persons in the*

Mr. President, I move acceptance of the committee's favorable report and passage of the bill, as amended. The purpose of this bill is to increase the interest rate on unpaid property taxes from 6 to nine per cent. This shall also apply the incur of interest on taxes delinquent on set date and thereafter. It is an excellent bill and I urge passage.

CAL. NO. 284. FILE NO. 136. FAVORABLE REPORT of the Joint Committee on Incorporations. House Bill No. 5395. An Act Consolidating Connecticut College for Women and Connecticut College for Men Under the Name Connecticut College.

SENATOR DINIELLI: This measure is designed for operation of

Mr. President, I move for acceptance of the committee's favorable report and passage of the bill. In the past the Connecticut college for Women was just that, but recently they enrolled gentlemen in their fine institution and now we have the unthinkable situation of gentlemen graduating from the Connecticut College for women. So this is to change that.

THE CHAIR: "Aye". Contrary minded? Bill is passed.

Question is on passage. As many who are in favor signify by saying, "aye". Contrary minded? Bill is passed.

CAL. NO. 289. FILE NO. 98. Favorable report of the Joint Committee on Transportation. House Bill No. 5783. An Act concerning Provisional Motor Vehicle Operator's Licenses.

SENATOR BURKE:

Mr. President, This measure is designed for operators of Motor vehicles to use the same form as the provisional operators form for divisional forms. The department of Motor Vehicles issues a provisional operators license which is distinguished by a code number. It's a good bill and ought to pass.

THE CHAIR:

Will you remark further? As many who are in favor signify by saying, "aye". Contrary minded? Bill is passed.

No further business on the Clerk's desk.

SENATOR BUCKLEY:

Mr. President, may I correct one omission before and may I also move that the following Calendar Numbers which are found under disagreeing action on page 14 be held retaining their place. Calendar Nos. 149, and 88 retain their place.

HOUSE JOINT RESOLUTION NO. 185. Resolution Commending the Right Reverend Monsignor William F. Kearney, P.A. to the Right SENATOR HULL:

This is my type of resolution, Mr. President. I move for suspension of rules for immediate consideration.

THE CHAIR: President, the resolution is self-explanatory and is

If there is no objection, the rules will be suspended.

RESOLVED BY THIS ASSEMBLY:

WHEREAS, the Right Reverend Monsignor William F. Kearney, P.A., pastor of St. Peters Church, is retiring from the active priesthood after fifty-one years of devoted and dedicated service in Connecticut; and

WHEREAS, Monsignor Kearney is the senior prothonotary apostolic in Connecticut and has the distinction of having served in major chancery positions in two dioceses; and

WHEREAS, since his ordination on December 23, 1917, he has truly exemplified, in the words of the Prophet Isaiah, "the nobility and grandeur of the priesthood."

NOW, THEREFORE, BE IT RESOLVED, that we of the general assembly unite in commending the Right Reverend Monsignor William F. Kearney, P.A. for his distinguished career of service to his church and to the community.

BE IT FURTHER RESOLVED, that we extend to him our best wishes for his good health and happiness during his retirement years.

April 9, 1969

WHEREAS, Herbert S. Coyne, Jr. will be honored at a testimonial program to be held at South Catholic High School on April 18, 1969, and

WHEREAS, he is the founder of St. John the Evangelist Boys Brigade in West Hartford and the present executive officer of St. Augustine Boys Bridade in Hartford and is being honored for thirty-five years of devoted and dedicated service to the youth of Greater Hartford; and

WHEREAS, he has served as coach of the St. Augustine School baseball team and has given many hours of service to CYO sports activities on a district level in track, swimming and basketball; and

WHEREAS, he has served as assistant commander of the three hundred member St. Augustine Boys Brigade;

NOW, THEREFORE, BE IT RESOLVED, that the members of this assembly unite in commending Herbert S. Coyne, Jr. for his many years of devoted service to the youth of Greater Hartford.

BE IT FURTHER RESOLVED, that the clerks of the House and Senate cause a copy of this resolution to be sent to Herbert S. Coyne, Jr. as an expression of the high esteem in which he is held.

SENATOR JACKSON:

The resolution is self-explanatory and I would just add that his long career of public service quite meritorious. I am hopeful that he will be able to continue for many years in the future. I move its adoption.

HOUSE JOINT RESOLUTION NO. 189. Resolution Expressing Sympathy on the Death of Spec. 4 Barry Jackson.

SENATOR BARNES:

Mr. President, I move for suspension of the rules for immediate consideration of the resolution.

THE CHAIR:

If there is no objection, the rules will be suspended.

THE CLERK:

RESOLVED BY THEIR ASSEMBLY:

Whereas, we were all deeply saddened upon learning of the death of Spec. 4 Barry Jackson, son of Mr. and Mrs. Allen Jackson, Jr. of Bloomfield; and

WHEREAS, he was killed in action in Vietnam while serving with the United States Army Air Cavalry; and

WHEREAS, we join his family and friends in mourning the loss of this brave young man.

NOW, THEREFORE, BE IT RESOLVED, that the members of the Assembly unite in expressing their deepest sympathy to the family of Barry Jackson; and

BE IT FURTHER RESOLVED, that the clerks of the House and Senate cause a copy of this resolution to be sent to Mr. and Mrs. Allen Jackson, Jr. of Bloomfield.

April 9, 1969

Page 10

SENATOR JACKSON:

Mr. President, I move adoption of the resolution. This is another unfortunate line of resolutions commemorating those who have been killed in Vietnam. Barry Jackson was born in Hartford moved to Bloomfield at an early age and lived in Bloomfield until being sent to Vietnam in 1968. If we are successful in getting annual sessions, if there should by any chance be a session next year, I hope that by that time, there will be no further necessity for thinking up tragic resolutions.

THE CHAIR:

Any further remarks? If not, as many who are in favor signify by saying, "aye". Contrary minded? Resolution is adopted

THE CLERK:

The Clerk is ready to move to the Calendar.

SENATOR ALFANO:

On page 1 of the Calendar, Cal. No. 160 is all right, the other two will be held. Page 2 of the Calendar, Cal. No. 192 goes to the foot, rest of the matters will be held. Page 3 hold all. Mr. President, I move for acceptance of the committee's favorable report and passage of the bill. The basis of this bill is to put the local manufacturers on a more equitable basis with the out of state manufacturers. It provides for a maximum fee of 2500 dollars. This will take care of the situation where the out of state manufacturers not being taxed on his manufacture of these products which are sold out of state but he is charged for those sold in state. Whereby local manufacturers charge

Sec. 2. The board of tax review of the town of West Hartford, may continue to hold sessions until not later than May 15, 1969, upon such days and during such hours as it shall prescribe. At such sessions said board shall hear appeals in such order as the board may fix. Said board, on or before May 22, 1969, shall determine the appeals of all taxpayers claiming to be aggrieved by the doings of the assessor of said town in making assessments for and upon the grand list of 1968, complete its doings on all matters pending before it and mail to each appellant written notice of the disposition of his appeal. Any person claiming to be aggrieved by the action of said board may appeal therefrom within two months from the date of the action by said board as provided in section 12-118 of the 1967 supplement to the general statutes.

Sec. 3. All appeals heard and actions taken by said board from April 1, 1969 to the effective date of this act are validated.

Sec. 4. Nothing in this act shall affect such rights as any taxpayer may have to relief under the provisions of section 12-119 of the 1967 supplement to the general statutes and the time for initiating action for relief under said section is extended to December 1, 1969.

Sec. 5. The time within which the town clerk is required to transmit an abstract of the assessment lists to the tax commissioner as provided in section 12-120 of the general statutes is extended to June 22, 1969.

Will the clerk read the resolution, please?

THE CLERK:

RESOLVED BY THIS ASSEMBLY:

April 10, 1969

Page 7

Whereas, on April 11, 1969, Maurice Tangney, Senate Sergeant-at-Arms, will be celebrating his 78th birthday; and

WHEREAS, he is a former Democratic Town Chairman of Waterbury and this is his fourth session as Sergeant-at-arms; and

WHEREAS, he has done an excellent job of keeping order and decorum in the Senate;

NOW, THEREFORE, BE IT RESOLVED, that the members of the Senate unite in extending their sincere congratulations to Maurice Tangney on his 78th birthday;

BE IT FURTHER RESOLVED, that the clerk of the Senate cause a copy of this resolution to be sent to Maurice Tangney as an expression of the high esteem in which he is held by us.

SENATOR VERRIKER:

I move adoption of the resolution. Mr. President, I have known Maurice Tangney for many years. As Democratic Town Chairman of Waterbury for some 10 years, in his wisdom, he paved the way for numerous democratic victories. In my years, as Democratic Chairman, he was always ready to give me help. Maurice, congratulations, I hope you celebrate many more happy birthdays. This resolution is a worthy one.

SENATOR MARCUS:

If any one opposes a resolution, for a man, who is busy handing out checks to all the members of the Senate. On a serious note, I join with Senator Verriker in supporting the resolution. It's been a pleasure to have Maurice around. I hope he's with us for many years to come.

April 10, 1969

SENATOR BARNES:

Mr. President, and members of the circle, I'd like to join in support of this resolution. Maurice provides more order and continuity in the Senate than any other person or group that I can think of. In fact, it's a little hard to imagine how the Senate would operate without him. I certainly, enthusiastically join in congratulating him.

SENATOR HULL:

My fondest memories of Maurice, is last session, when Tom Dowd, here, who is now Senator, came up from the house and was trying to tell me something. He was sitting the chair and Maurice told him you have to get out. Tome sort of gave him a dirty look and the next thing I knew, Tom was flying out. Maurice doesn't look like he's a fighter but he's very pugalistic when it comes to the Senate. Maurice it's been a pleasure working with you and particularly when you're handing me my check. I hope you'll keep your young active ways for many years to come.

SENATOR DOWD:

Mr. Preside t, I would like to amend those remarks, a little. It was moral persuasion rather than physical forces. But at any rate, although we disagreed on Rule 34, Maurice and I have patched things up, very well and I wish him many years of good health to my friend of long standing.

SENATOR LUPTON:

I'd just like to add to that that this is the first time

I've seen such an overt payoff for a resolution.

NOW, THEREFORE, BE IT RESOLVED, that the members of this assembly unite in congratulating Joseph Cardozo and Robert Iassogna for their accomplishments; and

BE IT FURTHER RESOLVED, that the clerks of the House and Senate cause a copy of this resolution to be sent to Joseph Cardozo and Robert Iassogna as an expression of the high esteem in which we hold them.

SENATOR LYDDY: Mr. President, the resolution would indicate that these young men, one the winner of the New England Region of the Boys Club and the other the runner up. They're both from Bridgeport. They're both from Boys' Club and both students at Colby High School in Bridgeport. I think they deserve a lot of credit and their parents do, they are wonderful people. The school should be honored and we should be very happy that we have both the winner and the runner-up from our State.

RESOLVED BY THIS ASSEMBLY: *on is adopted.*

WHEREAS, we were all saddened to learn of the death of Mrs. Bessie Bassell Zaiman, widow of Louis Zaiman and mother of Jack Zaiman, political writer for the Harford Courant and correspondent for the New York Times; and

WHEREAS, she had been a contributing writer to the Jewish newspaper, The Day and the Morning Journal; and

WHEREAS, she leaves two sons, Jack Zaiman, of West Hartford Robert Zaiman, of Hartford, and a daughter, Shirley Zaiman, of New York, four grandchildren and a great grandson; and

WHEREAS, we join her family and friends in mourning her loss. *Call. No. 31, may File No. 93 be recommitted to Committee.*

NOW, THEREFORE, BE IT RESOLVED, that the members of this assembly unite in expressing our sympathy to the family of Bessie Bassell Zaiman; and *Page 2 be held retaining their place.*

BE IT FURTHER RESOLVED, that the clerks of the house and Senate cause a copy of this resolution to be sent to her family.

SENATOR JACKSON: *though 279 be placed at the foot. May we take*

Mr. President, by the reading of the resolution, it is obvious where Jack Zaiman's great talent for writing comes from. Mrs. Zaiman had been in the newspaper field throughout her life and has also made a memorable contribution to the field of Journalism. We all join in expressing our sympathy to Jack

Cal. No. 256, File No. 197. Favorable report of the Committee on Human Rights and Opportunities. Modified Senate Bill No. 171. An Act concerning a Municipal Requirement of Certificates of Occupancy for Tenement Apartments.

SENATOR FAULISO:

Mr. President, I move acceptance of the committee's favorable report and passage of the bill. This is a product of the Interim Committee on Human Rights and Opportunities. The intention here is to strike a blow at some landlords who are still victimizing poor people who are tenants and who are forced to become tenants under trying circumstances. This is not a mandatory provision emanating from the State. It merely enables the municipality of town, or the legislative body of the respective locality to pass appropriate legislation requiring a certificate of occupancy when renting initially or re-renting. It works both ways, it protects the tenant as well as the landlord. Because if he gets a certificate, he thereby, provides accommodations that habitable. It also helps the tenant because he now has accommodations that are for human habitation.

There's been instances where an inaccurate record has been presented to a Court as a result of a pre-sentence investigation. This takes place, particularly, with people of Porto Rican background, who adopt names of different parents a mother in some instances a father. It's sometimes a record that's confusing, it may be the wrong criminal record and this gives Counsel an opportunity to confer with his client, so that there could be a prior determination of the accuracy of the implication contained in the pre-sentencing. SENATOR CALDWELL:

Mr. President, I move for acceptance of the committee's favorable report and passage of the bill. This allows members of the news media to observe the conduct of Elections. This represents a long awaited and well deserved addition to the Election Laws. Representatives of the news media, have traditionally been protectors of the public interest. They're responsible for bringing accurate, informative reports to the citizenry on all areas of public concern. Certainly, there is no matter of greater concern to the public than our Election process. The news media should be allowed and encouraged to function in this vital role of observing and reporting the conduct of elections. I move the adoption of the bill.

Mr. President, this prohibits the local housing authority from refusing to rent to applicants with a criminal record who are otherwise eligible. It also permits the housing authority to provide social services and if refused occupants could constitute some nuisance and continued eligibility would be effected. I believe it's a good bill and I think that people who have paid their debt to society must have a place to live and we think that the public housing authority should grant them housing.

SENATOR HOULEY:

Mr. President, I move for acceptance of the favorable report and passage of the bill.

THE CHAIR:

Will you remark.

SENATOR HOULEY:

Mr. President, in the event of any future questions on this matter, may I request that the following remarks be read into the record and said remarks be part of the proceedings. Mr. President, with the technological advances being made in containers for milk for human consumption, plastics or polymeric materials are receiving increased interest and usage. Some manufacturers provide single service or throw-away plastic bottles, while others are producing reusable bottles. It is with these plastic or polymeric reusable containers that we focus our attention. This bill is intended to insure the reusable bottles do not contain poisonous or deleterious materials which would contaminate the milk and endanger the health of the consumer.

Page 28

April 15, 1969

Chlorinated hydrocarbons such as gasoline, kerosine and paint thinners have been found by scientific testing, conducted in this state as well as by agencies of the Federal Government, to be absorbed into the molecular structure of the plastic material and thereafter reabsorbed into the milk. Science as yet has been unable to discover any cleaning system or method which would remove these contaminants once they have been placed in a plastic container. Thus, the only way that we can insure the health and safety of the consumer is to require that some test be applied to the containers prior to their being refilled with milk to determine whether or not any contaminants are present.

Let us take an example of what could happen without the safeguard of this legislation. Containers of this nature are often used by the consumer for various home purposes. For instance, assume that a housewife fills the container with DDT to spray her garden or fills such a container with kerosine for housecleaning purposes. When her task is completed, she rinses the container and returns it to a store for the return of the deposit. The container is eventually refilled with milk and sold to a consumer. Since no method for removing the contaminants has been devised as yet, the consumer, whether a child or an adult, is then subject to illness from the contaminants in the milk. If this bill is passed, no such contaminated bottle will find its way back to the consumer.

This bill is therefore designed to provide that any milk

Page 29

April 15, 1969

dealers using the reusable plastic containers must have a device or method which will automatically test the presence of these contaminants in plastic or polymeric containers prior to their reuse. Most Connecticut milk dealers have already installed such a device, but it is vital to the public health of Connecticut that all dealers be required to employ some method to insure against reuse of a contaminated bottle. Legislation similar to this is now in effect in more than half the states of the Union. It is one of the fundamental duties of the legislator to provide for the health and safety of its people. The failure to pass this measure would be a serious neglect of that duty. I move for passage of this bill.

THE CHAIR:

Any further remarks. Senator Lyddy of the 22nd District.

SENATOR LYDDY:

Mr. President, I concur this is a good bill. I did hear the word DDT, I think that we have the household filling these bottles with DDT. I have a bill which is presently being considered which will take one more step to eliminate the use of DDT from the state and I hope that we will have no DDT in plastic bottles or any other type bottles before too many more years. I think this is a good bill and it should pass.

Mr. President, this act provides for a statutory written examination of such scope as determined by the Insurance Commissioner. This is merely an amendment to an old law since the department has had written examinations for this type of license for many years although, they have been unable to certify on a statutory basis to other departments throughout the country when exercising its reciprocal agreement. The bill also provides for an examination fee of \$10.00 for each first time applicant. Again the bill was requested by the Insurance Department.

THE CHAIR: Will you remark.

SENATOR BARRY: Mr. President, the act provides for an increase in the license fee from \$10.00 to \$20.00 for motor vehicle physical damage appraisers. It also makes statutory the necessity of a written qualifying examination to determine the applicant fitness and ability to carry out the duties of his office to the best interest of the public. In connection with this application the bill also provides an examination fee of \$10.00. This bill was submitted to the general assembly by the insurance department.

Mr. President, this provides for the payment by Capt. Sullivan into the Police Benefit Fund for the several years that he was in the military service. This is a matter that has been done here before and I think that its only fair that he be given that opportunity. Two years ago this bill was passed in the Senate, I believe, but something happened to it downstairs in the closing days. I think that Capt. Sullivan justly deserves this opportunity. matter of this but Senator Marcus assured our side that he.

SENATOR HOULEY:

Mr. President, this measure is one of the most controversial that we will be faced with all this session. Implications are indeed far reaching and will profoundly effect one of Connecticut's most honorable professions, the Dog Catcher. Years ago the professional Dog Catchers felt that this designation lacked character and they asked that it be upgraded and be changed to the Dog Warden.

In our ever changing society we find that we are confronted with the same situation again. The Committee on Agriculture is every willing to cooperate and has decided grant this request and therefore, to this measure we have changed the name of former Dog Catcher to recently Dog Warden and now Canine Control Officer and happily we have elevated their position. I urge its passage.

the Dog Warden has a long and honorable history. It goes back into ancient history the name warden and dog. You couldn't get two more basic words that they go into the latin. When you want to hide something you go into latin, now we are getting into canine control. This is a silly bill but I'm sure it will pass.

People have gotten use to going to Dog Wardens and now you change his name to something else and I think that he maybe very sorry his name was changed because I have a feeling he will be beset with all sorts of problems including those that have to do with teeth. We have canines in our mouths there are all sorts of problems and I think it's confusing and I think a Dog Warden by any other name is a Dog Warden.

SENATOR BARRY:

Mr. President, this bill eliminates the requirement "in any emergency" and substitutes "whenever the Chief Executive Officer" of the town, etc. determines it to be necessary to protect the safety and well being of the municipality, requesting police assistance from one town to another. It also allows the Chief of Police or Board of Police Commissioners or other fully constituted authority with the Chief Executive Officer's approval to make available police forces notwithstanding any other state or local law.

The bill further allows written waiver by the Chief Executive Officer for reimbursement for incurred expenditures in making police forces available and provides that municipalities may enter into agreement with other municipalities with respect to assistance and reimbursement. I think it is in the public spirit and public interest and it should pass.

In Section 1, line 14 is amended by adding the following to the end of Section 1, subsection (a)"(12) The Cooperative Consumers of New London Inc. when selling or offering to sell its securities.

THE CHAIR:

Question is on passage of this amendment. Will you remark.

Page 16

April 16, 1969

SENATOR HICKEY:

Mr. President, I move for adoption of the amendment. The amendment would simply add a specific cooperative to this bill.

THE CHAIR:

Senator Moore from the 20th District.

SENATOR MOORE:

Mr. President, the cooperative involved is a group of black and white citizens in the town of New London who are working towards setting themselves up in business to better their lot in life and this would expedite their being able to set themselves up in business.

THE CHAIR:

Further remarks. If not, all who are in favor signify by saying aye, contrary minded. The amendment is passed. The Chair will rule that this is substantive amendment and will therefore be in the file and taken up later.

April 16, 1969

Question is on acceptance of the favorable report and passage of the bill. Will you remark.

SENATOR HICKEY:

Mr. President, the bill would amend Section 36-99 of our general statutes to include savings and loan associations, to which a mutual savings bank may participate in a mortgage that is originated by a qualified bank or by a savings and loan association. The present law confines participants to qualified banks or qualified participant banks.

THE CHAIR:

SENATOR TANSLEY: will. I feel certain that within the im-

mediate Mr. President, the indiscriminate use of DDT has created great apprehension throughout the country and in fact, around the world. The inventor of DDT twenty years ago was awarded the Nobel Prize by his native country of Sweden. The country has since been, outlawed the use of DDT. Many states have done it or are about to do it. The Committee on Public Health and Safety after looking into the question with some great care has relied on the responsible judgement of the Pesticide Control Board. We don't feel at this time it is justifiable to outlaw DDT in this state, Although we do not say that at some future date this may not be necessary. This particular bill extends the powers of the Pesticide Control Board so that municipalities will have seek a permit to use DDT. Just as custom sprayers now must do

 Any remarks on the bill as amended.

THE CHAIR:
 SENATOR HICKEY:

Will you remark on the amendment.
 Mr. President, this bill as amended would permit Savings
 SENATOR HICKEY: and Loan Associations to join together to own bank service corporations. The Amendment simply Mr. President, would restrict these investments in the State of Connecticut. We feel that this is the same latitude as federal savings and loan associations in making investments up to 35% of the contingency lost reserve especially at this time when mortgage funds are at such a small supply. Move for adoption of the amendment.

SENATOR BARNES:

Mr. President, and members of the circle, I rise to oppose the rejection of House Amendment Schedule, "A". I want to make it very clear that we, on the Minority side of the aisle, are very enthusiastically in favor of annual sessions. Our only difference with the Majority, is in the call of annual sessions and our objective is to find the most workable and the most direct and the most pheasable and the most uncluttered form of annual sessions. It's our view that this measure as passed by the house, providing for a regular five month session and a shorter session in the even numbered years without any restriction on the type of business that might be brought up is the better solution to this problem. Mr. President, I'd like to observe in passing that this debate today in somewhat complicated by the fact that the House Amendment are not published in our file. To be sure, we have them on our desks as required by the rule but I'd like to observe that under Joint Rule 18 which provides that if the amendment is termed "technical", it need not be printed. That this indeed are the matters, a matter as important as this, as important as anuual sessions is truly an abuse of the quality to rule an amendment technical. this rule shall not apply to amendments offered solely for the purpose of correcting clerical errors and mistakes in form or dates. These amendments made in the House, would seem to me go clearly beyond that part of the rules.

If I may be permitted to make a general observation of the context of this debate, Mr. President, I hope that the use of this ruling calling amendments, "technical", can be tightened up somewhat, in the future. I think that it restricts our debate somewhat and makes it more difficult, it certainly makes it more difficult to understand and as we get further into the session and bills come along at a greater rate, I don't think it would make a substantial contribution to the public business, to have any of these things ruled, "Technical".

Be that as it may, I wish to oppose the House Amendment, on the basis that to restrict the short session, to restrict the even numbered years session, to matters which are budgetary or revenue or financial is really, not only difficult but in fact in may prove to be unworkable.

How do we decide, for example, what is budgetary, revenue or financial? All this does is introduce one more subject or argument that I can see many countless hours of debate to be taken up with that often has little to do with the merits of the particular proposal, namely, a long prolonged argument of whether a bill is or is not revenue, financial or budgetary?

And therefore, arguing while it is properly before us. It

April 22, 1969

Page 12

seems to me, that it also opens up the possibility of court appeal. It gives the people opposed to a measure that may have been passed by this legislature in the even numbered years, one more opportunity to fight the measure, one more chance to say that it wasn't properly before the legislature and therefore, could be struck down by the court.

I wonder, Mr. President and members of this circle, if we're not really kidding ourselves. I wonder if we're not really inviting subterfuge, by putting something like this in the resolution and therefore, in the Constitution. Take something like Probate reform, for instance. One can make a case, if this is budgetary, revenue or financial. There are filing fees. In the even numbers years would probate reform be properly before the legislature? Someone has even observed with a wry smile, a matter such as, liberalizing the abortion laws be brought before the legislature in the even numbered years, providing a filing fee was attached to it. In fact, really, it's hard to think of any subject in which, it's not possible by amendment or by attaching a filing fee or some such condition it's hard to think of any measure that could, by some stretch, be brought before the legislature.

So I wonder, if this isn't subterfuge? I really question the wisdom of cluttering up our Constitution with a provision that may be unworkable that may lead to court appeals, that may be completely unnecessary and may simply invite subterfuge. I

April 22, 1969

Page 13

would urge, Mr. President, and members of the circle, that this is a measure as passed in form, by the House, is in the best form and that the motion to reject this particular House Amendment be defeated by us here today. ~~ed members of the House, that~~

SENATOR BARRY: ~~a law bill were to pass with a three dollar fee,~~

that Mr. President, I was going to reserve my remarks on the ~~ary~~ question of our limitation of our second session, to the point of which, the amendment will be before you, Senate Amendment Schedule, "A" which will be introduced. ~~ar~~ But I feel that if we are going to vote on it now, on the question of whether to indorse what the House has done or not to indorse it. We ought to, at least, get into some of the areas. ~~ed~~ Some of the arguments rose by the distinguished Minority Leader. And I will take serious issue, with him, when he says how do we decide what is a budgetary fiscal revenue matter. And I would also take issue with him, when he talks about risk of excessive court appeals. ~~about~~ I want very briefly, at this point, to say that this matter has been thoroughly researched and I would like to read to you, what is the controlling law, as defining budgetary revenue and fiscal, so that this argument will be seen for what it is. In effect it is a subterfuge for the type of position that the Minority party is taking on this amendment. And I would refer you to the case of *Ard versus the people*, in '66 Colorado page 484 where the Court says, "a revenue measure is one which has for its object the leveling of taxes in the strict sense of the word. That the principle object is another purpose for in-

April 22, 1969

Page 14

incidental production of revenue growing out of the enforcement of the act will not make it one of raising of the revenue.

Now, certainly, the argument made by, Senator Barnes, the argument made by, some distinguished members of the House, that if the abortion law bill were to pass with a three dollar fee, that might be attached to it, that would then become a budgetary matter, certainly, doesn't hold weight, in the light of the prevailing legal opinion, in this country. And I can't find any evidence, of any recessive litigation throughout this State. Now, we have six states which have limited sessions, limited for budgetary, limited to general welfare and other limited sessions, which we will go into later. And I don't know of more than two cases, in this country, that grew out of these limitations, and most states follow what is known as the principle purpose test and if the principle purpose is to raise taxes then it falls within that limitation. If it's to allow abortions then it does not. I think the issue is very clear. I think the people of this State want to have an annual session they want to have a budgetary session, they want to limit it and not let the flood gates open to all kinds of litigation. I would, therefore, move for rejection of House Amendment Schedule "a". Someone might contrive to bring before the legislature session were restricted simply to fiscal matters.

SENATOR MARCUS:

Mr. President, I rise to support the motion to reject the house amendment. Mr. President, the distinguished Minority

April 22, 1969

Page Page 15

Leader, I, myself, really find ourselves in the same side of the basic issue and that is, I think, we both, unequivocally support the concept of annual sessions. I do think that Senator Barnes, however, in the two points that he made, to the circle, is in error. To begin with, it is very obvious that no one in this circle, has any control over any ruling made by the Speaker of the House, in his wisdom, anymore than the members of the House have any control over any ruling that the President of this body may make. I would agree, I think that it's unfortunate in this particular situation, that the House Amendments are not in the file. However, I also think that it's self-evident that this is one of the great issues of this session, this is one of the issues that we've all been living with and I think are fully conversant with. On the issue of rejection, itself, however, I think it should be made abundantly clear, that Senator Barry intends to introduce an amendment. An amendment which would propose that the second year cover not only fiscal matters but those matter raised by joint committee, those matters which the President Pro Temp and Speak would accord emergency certification. So that, infact, the example of an abortion bill, if we're going to use this as an example thing, which someone might contrive to bring before the legislature, if the session were restricted simply to fiscal matters. This type of desception would not be used, need not be used because the simple fact is that if the Joint Committee wish to

April 22, 1969

Page 16

~~We~~ raise a bill on abortion or any other subject matter it could. I think the obvious fact is that within a 90 day second year session, it would be almost impossible for this legislature to adequately think about and discuss and review and really dig into five or six thousand bills. And this really is what the issue is. The only issue before us today, in the minds of those who support annual sessions, is not an issue of House versus Senate. Not an issue of Majority Party versus Minority Party because I think that the vast bulk of us are married to the concept of annual sessions. The only issue is really what will be most productive for the people of this State, what can we oderly and properly take up in a second year session of 90 days, bearing in mind that Connecticut, if it does enact annual sessions, if the people do support it and I hope that they will, is truly embarking on a new concept for the State of Connecticut and a 90 day session certainly could not adequately handle the same kind of volume that we see on any year basis.

SENATOR BUCKLEY:

Mr. President, I rise to support the House Amendment. I do this consciously rejecting the argument that this body cannot regulate the flow of its own business through rule changes. I accept the fact of responsibility. I accept the fact that I feel the people who sit around this circle and the people who sit in the House, downstairs, are mature and intelligent individuals, would not want a duplicate flow of bills such as those bills

April 22, 1969

Page 17

that rise in the first session presuming we do have annual sessions. And would be able to conduct their own affairs. It is interesting for me and in many circles in this building, to hear talk of responsibility as a legislature making it a co-equal of the executive and then on the other hand saying, that we cannot regulate our own affairs by having an unlimited or open session. That we need some restrictions on certain bills that can be introduced and cannot be introduced therefore, denying the argument of the co-equal branch, the branch that those people who sit in this circle are part of. It seems a little ridiculous to me, I certainly feel that my colleagues here in this circle and my colleagues downstairs, do have that responsibility and I think that unless we have unlimited sessions and deal with the problems of regulating business which may be suggested to the second session by rules, that we are not doing ourselves a favor. We are not enjoying the self-esteem that some of us would like to have for this body this circle, this general assembly.

THE CHAIR:

Question is on the motion to reject House Amendment Schedule "A" from Resolution No. 160.

SENATOR HAMMER:

Mr. President, I have one practical suggestion to make and one question to ask. As far as I am concerned, I think it would be very foolish to put into our Constitution this limiting restriction on what we can take up in the second of two annual

April 22, 1969

Page 18

sessions. If we put it in the Constitution and then in one or two after one of two bienniums, we feel that we want to change this, then we have to go through the whole constitutional amendment process again. I wonder if it would be far better to put into the Constitution the fact that we intend to have annual sessions, make this change and then control the subject matter by statute? It seems to me, the more reasonable and practical way of doing things. The question that I want to ask, and I'm sure people will think it's immature, but it worries me, a great deal. If we reject the House Amendment and substitute one of our own then I see the possibility of a stale-mate arising between the House and the Senate in a committee of conference. And then I see the hard possibility that the whole issue would go down the drain through this device of a stale-mate in a committee of conference. I wish some one would comment on that.

SENATOR MARCUS: we afraid of? It's our Republican philosophy that Be rushing pell-mell to answer Senator Hammers' question. But to comment I think the very obvious fact is, that has never been the basis of any action taken by this body. Let's face and cross that bridge if and when it ever comes.

SENATOR BARLOW: Mr. President, I wish to state at this time, to go on record, that I'm in favor of annual sessions, without any restriction. If we're going to follow through hopefully with some

THE CHAIR: sharing and some hope that the state, being closer to the people, will pick up some of the loaded government and

April 22, 1969

Page 19

Question is on the rejection of Schedule "A2" of Resolution No. 160.

SENATOR HULL:

Mr. President, I rarely do believe this is a Republican Democratic issue. I wonder if there are two Democratic parties in this wonderful old building, for I will call to the attention of this group, that the vote in the House was that rarity of unanimous vote for the unrestricted second session. All of the Democrats and all of the Republicans and all of us Republicans up here, as far as I know, and I don't want to go out on a limb because we have many independent coats in our party, but so far as I know, all of our people are ready to go for unrestricted second session. So I do think that it's a political issue of the greatest magnitude that separates us. The question is, what are we afraid of? I've said this again and again up here, what are we afraid of? It's our Republican philosophy that that government which governs best which is closest to the people. And we also, sadly decry the rift toward federalism. But the fundamental reason is one of Governor Rockefeller pointed out town years ago, toward the rift toward federalism, is that the states, in the mal-apportioned, under paid and under staffed legislatures were only step-children in the State Government administration and the states were not equipped to do the job. So if we're going to follow through hopefully with some revenues sharing and some hope that the state, being closer to the people, will pick up some of the loaded government and

April 22, 1969

Page 20

pick up perhaps in the areas where it is particularly expert and apt to have a better answer have the State manage the problems instead of Uncle, so far away. WE've got to have a strong state government. And it's axiomatic that in order to have a strong state government we have to have a strong legislature. I don't expect to change anybody's mind here but this is my fourth term and I've always hoped I might change one, before I leave this chamber. So I'll carry on a little longer.

The Eagleton Report, which Senator Marcus helped bring about, and I thank him, of it, has been of some benefit already. Urged unrestricted annual sessions with these arguments, which are very well summarized in a remarkable study made by the Yale Legislative Services, Yale Law School, New Haven, Connecticut, signed by Eathon Sap- Katsh, Yale Law School 1970 and Frederick Taft, a wonderful name in my circle, Yale Law School 1971. And I hope that the distinguished lawyer and Senator David Barry has read this, because this indicates a great deal more litigation than he had reported to us on the subject of what does or does not come within the purview of a restricted annual session. Well, as they sum up, the recommendations of the Eagleton Report, they say this report included that unrestricted annual sessions would permit a. more time for the legislators to deliberate bills, I suppose you get tired of hearing us fellows in Judiciary talk about the load, but we have almost one out of five bills, just short of a thousand bills this session and as soon as I get

April 22, 1969

Page 21

through this debate, I'll have to rush back there and hope to get more bills out by 5 O'clock. It is not unrestricted.

Obviously, when we have the other session, unrestricted, we'd have to have some rules changed to allow hold-over bills. So that that six to eight weeks of filing, enumerating and tracking down the bills would be eliminated for the vast bulk of the bills, particularly those filed by incumbent legislators. And I see. Secondly, better over-sight executive branch, by the legislature. Mr. President, this is the most important single reason for unrestricted annual sessions. How are we ever going as the people's representative, which we particularly are, in the House and the Senate, how are we ever going to have any overview of the actions of the Executive Branch, unless we have plenary powers each year that we meet here. I know Senator Seymour Fallor, quite well, met him a few times in Albany, and Sy Fallor, through his welfare committee has actually brought about revolutionary changes in health care in New York State. He's been a demon on the trail because he has the investigative powers of the Legislative Branch to over-look the Executive Branch. This legislature short of properly paid staff and housed meet in annual sessions through its chairman, regardless of whether controlling party or not, be conducting constant investigations of the Executive Branch, Welfare comes to mind, motor vehicle, highway, why did you do that wrong, why did you do this wrong and if not, how can we help you do it in a better way? Just on being called. It may have been the case this morning.

April 22, 1969

Page 22

We are, really, a major issue almost going through the motions if, in the second session, it is not unrestricted.

The third reason that the Eagleton Report gave was the development of an annual budgeting system. Which would be possible under the restricted bill. Next is the creation of full time staff assistance for the legislature and finally, a greater visibility of the legislature in the State. It's amazing, and I ask every member of this circle, to ask his constituents, a thousand of them, in front of any candy store on a Saturday afternoon, how often this legislature meets and I swear not 100 of them know that we don't meet every day all year round. But they seem to have the impression, that we're here all the time. And when I tell them, we have to wait for a bill for the town, or the District or something of great importance, I can't get it done because we won't meet until the odd numbered year in January, they are astonished. A very interesting aspect of the amendment, which I believe, would be fair to discuss briefly, at this time, because it's all one debate, if there is no objection, is that if committee bills are the only ones allowed under that amendment, or emergency bills any one party legislature the members of the opposite party wouldn't even have a chance to file bills. They'd be a complete shut-out, a gag-rule. It's bad enough being in the minority, but at least we can file our bills and at least get a hearing and get the public and sometimes we can even get through the Governor, certain issues, that we insist on being called. It may have been the case this morning.

April 22, 1969

Page 23

But under the proposal we need not even file bills because each committee, of course, would be controlled by the prevailing party. Now, what has the experience of the country been? This Yale Law School Report, points out that the trend in the United States is for unrestricted annual sessions. In 1945 only four states had unrestricted sessions. Today, 15 have such sessions. Four of these 15 states, changed to unrestricted annual sessions after having tried restricted sessions in the even years. There are only six states, today, with some form of restricted annual sessions. I suggest to you, that an interesting thought occurred that you could not have a special session during this restricted session, in case it might be needed. I suppose committee bills could solve this but I just raised that for consideration of the circle.

Now, in closing, Mr. President, a pattern is developing here that we're all aware of that is going to be the sad story of the 1969 general assembly. Mr. John Zaiman, eminent journalist, reverted to it in an article yesterday. That is, that the control is so tight up here, the controlling party, that the final decisions on progressive legislation that some of want, that were made up here, and that pretty much of a head is given to the youngsters, the youngsters down in the House. The Billy Ratchfords and the Carl Ajellos are those heading your great party, and who are determined to do what they told the voters and what they feel this state needs. And as these issues come

April 22, 1969

Page 24

come up and I'll start keeping a list of them and this is issue no. 1, they're going to go through there with overwhelming margins and your party is going to look very good down there, serving the wishes of the people. And then they are going to get a cruel hold up in this session, up in this chamber and that's going to be the end. For indeed, Mr. President, I think this is a major issue. I think that the controlling party in this chamber, intends to and is going to make the Senate a boulevard of broken dreams. And you're going to see issue after issue come up, just like this one, to receive a cruel death blow, from the controlling party.

SENATOR FAULISO:

Mr. President, I wish to remind the distinguished Senator from the 24th, that the Democratic Party is truly one party. And that our unity has spelled victory after victory. And that, however, people, reasonable people have the right to differ, be they Democrats or Republicans. I know very little about the body of the Republican Party, but after listening to the distinguished Senator, he sounded like he was conducting another requiem for his party. He doesn't hold out much hope. He speaks about the minority party, he speaks about one party being in control. Now, Mr. President, for a long time, I've had some reluctance about being in favor of annual sessions. I read the Eagleton Report and I think it contains many good things and suggestions. When we started off, in this session,

April 22, 1969

Page 25

there were many people who made new promises. Now, the present system has provoked abuse, much abuse and that's because we are permitted to file bill after bill, mountainous bills, 7000. Repetition of previous sessions, confusion and chaos which is normal position. It seems we are putting the cart before the horse. It seems that we have not cleaned up our own house. There is wide spread abuse, individually and collectively and there is utter confusion. Mr. President, if we produced or if we passed unlimited annual sessions, we will compound this abuse. Why, in this very hall, this very assembly, it's very difficult sometimes to even gather the people in a particular caucus room. Sometimes I think that some people deliberately don't want to leave these chambers or these hallowed halls. I'm impressed with the fact that they like to be here. Some of them, I believe, ought to make application for squatters rights and camp here all year. Now, personally, I'd like to see business conducted normally with regularity and expeditiously. I think the Eagleton Report is noteworthy and significant. I think we ought to clean up our own house. I think that it is important that we put restriction. I think that if you opened up the flood gates, you're going to have the same bills. I foresee also, that people who are presiding can circumvent rules. They can be secured so that if you leave it to the people who preside you have also weaknesses. It is important that we take restrictions. It is important that these matters be re-

April 22, 1969

Page 26

stricted to budgetary or fiscal matters or matters raised in committee. I think you have to harness the individuals that come here. I think the people and the general public are asking questions. They want to know what we do here. What is it important that we are dealing with? Now we have called for public hearings and I mention this, Mr. President, because the greatest example of the abuse I'm going to find tomorrow morning, in the House where this is going to take place. We have a rule that the Chairman would be somewhat in control of our public hearings. And then there is another rule which says, that if you have a petition you can demand a public hearing. Consequently, we are frustrating those things which would bring about regularity, would bring about some form of regularity, which I think is important. But we're going to hear, for the second time around, this question of busing children to schools. And that is because some individual wants to take advantage of the political situation that may be inheritant in this great question. And the gentlemen who are apparently behind this, think that this is important for him to have the truth. This is an example of the abuse. And I say, Mr. President, that we ought to clean up our own houses. I think we ought to do something about meeting promptly. I think that the board of directors meetings ought to go out the window. I know people have to come here on time. I think we ~~woul~~- ought to take care of our business. I think we ought to take care and give priorities to the bills that the people are looking for. This abortion bill, the

April 22, 1969

Page 27

question of having a public hearing is because we yielded, and capitulated through the fair sex of the society and I respect them and admire them because they wanted a public hearing. I could repeat that refrain and so could Senator Hull. I heard him in a disitation to the members of the Judiciary, tell then about the abortion bill. We needed a public hearing on the abortion bill like we need a whole in the head. We need a public hearing on capitol punishment in the same fashion. NO concept bills, no fault concept, yes. The pollutions bills these are important questions. These things that hve been gone over, and over seems to be a waste of time, a waste of taxpayers' money. I'm going to vote for this annual session but I'm going to vote that it be restricted. I regret that I depart from my colleague from the second. I think he wants it unlimited but I think and I foresee great abuse and this is what we must stop. And this is what we ought to make our commencement with, the question of doing things first and the first things, seem to me, to clean up the abuses that now exist in both houses of this legislature, and then go on to the special business of this legislature providing for annual sessions.

THE CHAIR:

Question before the circle, is a motion to reject House Amendment Schedule "A" of Resolution No. 160. Are there further remarks?

SENATOR RUDOLF:

April 22, 1969

Page 28

SENATOR RUDOLF: *It's too long in coming. I oppose the*
Mr. President and members of the Senate, just this afternoon, we observed a meeting of people from the City of Hartford and the surrounding areas. Of people who come from neighborhoods, and I'm a little bit disturbed that the good Senator from the First, is in favor of restricted sessions. People who are desperate, people who are in need of proper programs. People who truly are in need. I want to thank the Chairman of the Appropriations Committee for allowing them to speak because they came to the house and said they wanted to be heard. And I believe, Mr. President, this is exactly what we're talking about. There are people outside of this capitol, who are desperate, who have good intentions and who want to be heard. And for some reason or other, Mr. President, we are not listening. They sat in the Appropriations room and one after another said, we have problems, there is discontent, there are racial problems and we want you gentleman to appropriate funds. My point is this, that we have no right to go back to these people and say the session is over, come back and see us in 1971. We have an obligation to say to the people, next year we'll have another session and you can return and voice your opinion again and again. But for some reason or other, we have a built in program to allow a truly off-period between one session and the other. And I think it incumbent upon this general assembly and the elected officials, to provide the people outside this building with a place to speak from. We've got to give them the

April 22, 1969

Page 29

opportunity to speak. It's too long in coming. I oppose the amendment, Mr. President and I hope that this Senate will support open sessions.

SENATOR BARNES:

Mr. President and members of the circle, the interesting thing about the debate on this particular amendment is, that we find ourselves arguing, debating under the restrictions which are proposed, restrictions limiting sessions to revenue, budgetary manners are workable or whether they are not. We've heard very little about the reason for limiting these sessions in the first place. Just what it is to be accomplished here? What fear is it that these restrictions are designed to meet? Because there seem very little reason, so far, on the floor this afternoon, to limit sessions in the way that they are supposed to be limited. The distinguished Senator Barry referred to a court case indicating that in his judgement this matter is well established that budgetary has been defined that if the principle purpose of the bill is to raise revenue and so forth that therefore, it's a budgetary or revenue matter. The mere fact that there had to be a court order proves exactly the objection that I'm raising. Why, knowingly, and with our eyes wide open go into a situation in which we know there are likely to be some judicial appeals? Why even raise this kind of a segment? Unless there is some genuine public purpose to be solved. Six states have limited budgetary sessions now, we've

April 22, 1969

Page 301

learned. How many of those are by Constitutional Amendment? How many of those are by Constitutional restriction? As opposed to ~~either~~ a restriction in the rules or by statute? The question remains, in spite of the length of this debate, Mr. President, that the question remains unanswered. The question why tie our hands? No legitimate arguments have in fact, been advanced. Why tie our hands in this way, in this legislature and why raise the specter of additional hours of arguing of additional problems the constitutionality and court appeals by restricting the session in this way. Mr. President, I would ask, that when the vote be taken, on this amendment, that it be by roll-call.

SENATOR MARCUS: ~~are the kinds of things that if they are not~~
~~Mr. President, I think that it's unfortunate that the~~ not distinguished Minority Leader keeps getting himself hung-up, on this matter of a session restricting ^{ed} to fiscal matters. This is not what is being opposed by Senator Barry at all. I thought that this had been made abundantly clear. The Eagleton Report which quite frankly, I think has been invaluable, which I also don't consider as being the Bible, being sacrosanct, in fact, recommended that there be no individual bills considered at all. That all bills brought before this circle and the legislature be in the form of committee bills. This, in fact, is the ~~recommendation~~ recommendation that will be contained in the amendment to be presented by Senator Barry. The Minority Leader is aware of this. He's aware of the fact that any bill which is truly in the public

April 22, 1969

Page 31

interest, any bill that goes beyond the scope of the private interest of one individual legislator or several members of the public will receive adequate hearing, will receive adequate attention based on the amendment to be presented.

So, really, I think we're getting ourselves hung-up on an issue that doesn't exist at all. The issue is not whether or not we're going to restrict the second year of an annual session bill, in fact, when enacted, to fiscal matters. The issue is whether or not we will keep out of that second year some bills. Bills, for example, that might call for a cannon being shot off at 3 a.m. in the morning; to keep the crows away from somebody's crop. Now, these are the kinds of things that if they are not enacted in the first year of the session, certainly, should not be reconsidered again. But certainly all of the reasons for having annual sessions, still relate to the amendment to be presented. I would also, Mr. President, very briefly, speaking of the comments made by the distinguished Assistant Minority Leader, point out that Connecticut does not have a unicameral system, it is a bi-cameral legislature, there certainly is room for disagreement between the two bodies, which hopefully can be compromised. It certainly does not mean that because we all belong to one party, in the Majority, we don't all necessarily have to think alike on every issue. This, in fact, of course, is what has distinguished the Democratic Party from any other party. That we can disagree and on the other hand we

April 22, 1969

Page 32

can, ultimately, get together and unite to those things which we feel are right for the people of the state. So let me point out, constitutionally, the reason we have a bi-cameral legislature is to move with the tradition in this country of checks and balances and I think it makes a great deal of sense. I do think, we are really hung-up on this debate on a very moderate difference between what appears to be the view of the Majority and the Minority. well said it and as Senator Marcus

open May I just point out for clarity, in answer to a couple of questions raised. First, in response to Senator Barnes' question about how many of the six states now which have limited sessions which my research shows seven, Utah having become the seventh in November 1968, in which of those states is done by Constitutional amendment and which by rules? May I say, Mr. President, all of these are contained, these restrictions are contained in the Constitution, of these various states. And secondly, I would like to point out to my good friend, Senator Hull, that when he refers to this study done by the Yale Law School, which by the way, was done at my request, and I have conferred on many occasions with Mr. Kasch and Mr. Taft and they are very thorough researchers. May I just point out to him, and to all of you, who may not have read this report, on the question of litigation, arising out of budgetary sessions, about that aspect of the amendment to come up being presented by me, on page 4 of this

report, and quoting from the report, " with respect to budgetary fiscal sessions, " litigation under these budget clauses has not been a problem. In all ten states, there are ten states that have this, at some point in their history, there appears to be only one reported case, the Pennsylvania decision holding that a resolution was not a law, dealing explicitly with a budget clause." I see no problems in this, in terms of litigation. I think the law has well said it and as Senator Marcus has said, the resolution or the amendment that we will propose opens it up far beyond the budgetary exclusion in any event.

Some might be confused, the debate sometimes does not elucidate the situation. I thought that the Chair might point out, the significance of the vote. That the House Amendment Schedule "A", did away with the restriction. So if you want to reject House Amendment Schedule "A", you are going to, now I haven't got it straight myself, Senator Marcus will .

the first page thereof, indicates that the 90 day session should we pass this overall bill and should it be ratified by the people, would run from the first Monday, on the Wednesday following the first Monday in March in even numbered years until the Wednesday following the First Monday in June. The House has moved this earlier in the year by one month, running it from the Wednesday after the first Monday in February to the Wednesday after the first Monday in May. The reasons as were spelled out in the House are on the record there. Frankly the 90 day period, to me, doesn't make a great deal of difference whether it begins in February or it begins in March. I think the important thing is that we have the 90 day session. I would move that we accept the House Amendment Schedule "B".

SENATOR BARNES:

Mr. President and members of the circle, I rise to support this amendment. I've conferred with my colleagues, Senator Eddy, he tells me that this change doesn't interfere with the planting season, so therefore, I see no reason to oppose it.

SENATOR MARCUS:

As long as we don't have to entertain that bill that shoots off a canon and scare the crows away, I find myself, in agreement with the Minority Leader.

SENATOR EDDY:

I'm just a little bit worried about this legislation that its going to make it possible for the birds to eat up the crops.

This doesn't appear like to important legislation so I think to the Minority leader and the Majority Leader but to the few remaining farmers in this state, it is very important, and I just wanted to remind them.

SENATOR HULL: Now, we have over the past three-quarters of an hour knowing the distinguished and aristocratic Senator Eddy, I doubt that he's going to have very much to do with the planting anyway. National Amendment Committee, that I acknowledge that the

assembly and those matters certified in writing by the speaker of the house of representatives and president pro tempore of the senate to be of an emergency nature".

SENATOR BARRY:

Mr. President, we have over the past three-quarters of an hour or so, gone into pretty much the content of Senate Amendment Schedule "A". However, let me say, as Chairman of the Constitutional Amendment Committee, that I acknowledge that the bill which came out of that committee, is an extremely tight one and I think, Sir, the deliberations in the House through the deliberations here, both in caucus and here on the floor, we are going to afford a really, much better bill than what came out of committee. As a matter of fact, the bill that came out of committee, which restricted this session to strictly budgetary matters, would have made it the most restrictive in the United States.

Now, commenting on the amendment, itself, really, what else is there that should be brought up in the even yeared sessions? that can't be brought up under the provisions of this amendment? First of all, everything of a budgetary nature, everything whose over lying principle purpose has to do with the budget, has to do with levying taxes, has to do with raising revenue can be submitted to this legislature by bills in resolution form that would be properly before the legislature. Everything that is the product of an interim committee has the opportunity to become

April 22, 1969

Page Page 39

a committee bill. And I resent the notion, that the committee being in charge at the present time, both in the House and in the Senate of the same party chairman, that this becomes necessarily a one party gag-rule. We have, at least those of us in the Judiciary Committee now, and I know on the Constitutional Amendment committee, bills submitted by members of both parties, which came out either in their own name or which came out in the composite type bill as a committee bill. So that I think under the provision of this amendment having to do with bills and resolutions of committees of the general assembly that the great products of the interim committees which have merit, the expression of response to public needs, not following within the budgetary provisions, will be amply brought up under the heading of committee bills. Now, all of us know, that you can't go to a committee, even a committee of which you are a member, which perhaps, you are a long time member, with all of the meritable bills which we come up with year after year. Nobody would go to the Chairman of the Committee and ask them to raise a bill that really didn't have some important meaning, to the people of Connecticut. And what we really ought to be doing here, it seems to me, in the even year sessions, is telling the people what we want to bring up, that we want to deliberate in the off year, so-called now, are those matters which came up in the interim, those matters of an emergency nature, those matters which are compelling and which the time

April 22, 1969

Page 40

has come and not have to wait 18 or 16 months until the new session comes around. And some people who have argued against this rule of annual sessions has said, so we've already got a special session procedure, and I would only like to say that, Eagleton had some remarks about that and I quote, "let's face it, while some special sessions are technical sessions possible for anything, the fact is that there has to be a really extreme emergency before one is called and when we do have special sessions, they are always disorderly and chaotic." I submit to you, Mr. President, that in all three of the areas of this amendment, will bring before the public and will bring the public here, if our rules control hearings adequately and our Chairman control them adequately, will amply serve both what comes out of the committee and whatever business comes into the committee from the public. And we will be spared the great flood of bills, 5 to 6000, and I tried all day to get a bill from the comptroller's office, by the way, and I wasn't able to get it in time. But I think the people of this state would be interested to know that fact. I think they'd be interested that when they go to the polls, hopefully in November of 1970, and they are going to decide whether or not we can come here in an even year session. I think they'd like to know, what it costs to print all of those bills which have to do with shooting off guns, which have to do with putting warning labels in the soles of shoes and a great many other inconsequential things, and I'm

April 22, 1969

Page 41

not, no offense to Senator Eddy, but we all know that all of these bills, are not worthy of presentation to the people and you know as well as I do, Mr. President, that they end up in a great waste basket. And they cost the people of this state a great deal of money. This is just one item, that I think will be spared and I think we can go and we can campaign in 1970 on this issue and we can go to the people and say to them, we can better manage the state on an annual basis, we can better propose a budget on an annual basis, that we can do it at a greater cost and a greater efficiency. For one thing, because we don't have this clutter of bills. And we've got them this time and you can talk about all the rules you want, we're going to have them for some time to come, and who is that I heard, in the house say, don't put it in the Constitution, let's leave it to the rules. Who is there here and who is there in the House that knows that if he's going to be here in two years, that he's going to be in any position to control the rules. I say let's the people decide this, let's let them have the referendum on this question and let's let them put in the Constitution, what restrictions they want on items that we can entertain in here. I move the adoption of this amendment.

THE CHAIR:

Question is on the adoption of Schedule Amendment "A", Senate Amendment Schedule, "A".

SENATOR BARNES:

April 22, 1969

Page 42

SEN. Members of the circle, I rise to support this amendment. Having lost the fight to have sessions open and unrestricted, I think that this amendment is an improvement over the language that came to us in the House. It does provide more leeway which was the main objective of the thrust of our arguments earlier in attempting to restore the version that the House sent to us. I would note, however, that I think that the effect that this amendment is going to increase the power of the party that happens to be in power at the time, whether it be my party or the other party. Certainly the provision that only committee bills can be raised and only emergency certification can be used, obviously, concentrates very significant powers in the even numbered sessions, in those who control the legislature. I would prefer to see all bills that were introduced at the start of the session and in the long session, we might call it, carried over. Provide, perhaps, that no new legislation be introduced but carry over the bills that are already in. It seems to me that this would tighten and insure the participation on the part of all members of the legislature, not just the committee chairman and the political leaders.

So, I don't see that the flood of bills argument is one that is very persuasive. But be that as it may, rather than defeat this and find ourselves faced with a much more restrictive type of short session in the even numbered years, I would support this amendment as an improvement over what is now before us.

April 22, 1969

Page 43

SENATOR MARCUS: being better than none, under this amendment

I also join in supporting the amendment. My feelings relating to it were previously expressed. I would like to point out to the Minority Leader, however, that in reality the fact that bills would have to be raised by Joint Committee in no way differs from the existing situation where a committee must bring out a favorable or unfavorable report to a piece of legislation. The only distinction, of course, is in the raising of the bill. So that, in fact, this has nothing to do with politics at all. Certainly, the feeling of those who advocate this amendment is not based on any particular consideration but only on the feeling that this is what is best for the people of the State of Connecticut.

SENATOR HULL: I might just as well stay home, if only the com-

mittee. Mr. President, it is of wry interest, after one has been in the position so long, it seems to look a little different. I am not admitting for a moment, that my party isn't going to control both houses of this assembly and the Governor's chair in 1970, I sincerely believe that. But I don't want us to have all that power either and I want to give Senator Marcus a very good example of why this is wrong. Under the rules and with the cooperation of Senator Pickett, I insisted on a public hearing on some bills concerning code of ethics. I had to insist quite hard. We had a hearing Monday, now, under this amendment, which I will, reluctantly support because of the ancient principle

April 22, 1969

Page 44

of half a loaf being better than none, under this amendment no bill in existence on which to have a hearing. And then, Governor Dempsey would not have had to call a press conference this morning, to say that he wanted a code of ethics bill right away, because he didn't want to get this confused until we had that hearing yesterday morning and at my request, on bills which we introduced, as elected representatives of the people, under the present system. And believe me, Mr. President, members of this circle, it would really be, whichever party, it might be that control both houses would be gag-rule, the minority would often has and your side had some constructive suggestions through the years when we were fortunate enough in those dear dead days of long ago, that we controlled both houses. The Minority party might just as well stay home, if only the committee is to raise bills, however, we will support it because we must, it is a move toward annual sessions.

SENATOR STANLEY: was a pretty broad bill. The only person to
Mr. President, I rise to explain my vote. I find myself perhaps for the second time, this afternoon going to vote yes. When in fact, the question is put, I intend to vote no. And I am going to vote yes, because I feel that if I've got to live with annual sessions, and if the people of this state have, that this amendment, what I think we should do, but I want it clearly understood that I do not support nor intend to vote for annual sessions and there is another question I would like to ask. I

April 22, 1969

Page 45

notice over here, they keep mentioning the carbine cannon, is this the issue that's coming under attack, today? They talk about the cannon that frightens the birds? That's a darn good bill. I fought very hard for that carbide cannon and I would say this, if you came from the 19th District, and had respect for the farmers in Bozrah and Lebanon and Lisbon and I would fight again for that, and I would hope that if we do have annual sessions that something that important might come up under emergency certification. Thank you, Mr. President.

SENATOR ALFANO:

I rise, primarily, to correct a statemtn made by Senator T. Clark Hull, in reference to the code of ethics bill. I want to call your attention, Senator Hull, to a public hearing that was held before the committee on Public Personnel, approximately two months ago. You will find that at that hearing, there was heard a bill, in regard to code of ethics for officers and state employees and it was a pretty broad bill. The only person to appear at that hearing, at that time, on that bill was myself. I introduced that bill, for the Administration and for the Democratic Party and I appeared at that time, on behalf of Governor Dempsey, in support of that bill. I want to make the record clear, clear that the Governor has always been for a code of thics. This Administration bill was submitted at his request and I appeared before the committee, in person, the public personnel committee, at his request and I think the Chairman

April 22, 1969

Page 46 47

of that committee if he exhibits the record or the transcript of the hearing at that time, would expose my appearance there on behalf of the Governor and the Administration. Is proper

THE CHAIR: to be used in the Constitution of the State of Connecticut

Question is on the Senate Amendment Schedule "A". This

SENATOR FAULISO: an improvement of what was printing in the bill

orig I know the hour is getting late, but it strikes me as very strange that we've debated this such a long time and that no one ever mentioned how much it's going to cost the taxpayer.

No one has projected any figures. But it's simple arithmetic that the restricted annual sessions won't cost us less and the taxpayers are going to say, amend it and I'll be right now.

THE CHAIR: Don't want to hear debate anymore now or later.

Any further remarks? Senator from the 11th requested that a roll call be taken on this amendment. Is the acceptance of

SENATOR HAMMER: I Schedule "A" to resolution No. 100 amended also

by Mr. President, with regard to this amendment, Senate Amendment schedule "A", I intend to support it but I just can't help but rise and to say that I think it is extraordinary language to put into the Constitution. This is language that we use in the context of the rules of the general assembly in 1969.

In 20 years, I ask you, Mr. President, how do we know what these words, for instance, bills raised by joint committee are going to mean? These are not words that have an inherent meaning so out of context they mean little or nothing. I really object to this very much since I've been in the general assembly and have

April 22, 1969

Page 47

taken any part in forming or voting for Constitutional Amendments I've always tried to keep in mind, what is a Constitutional issue, what is not a Constitutional issue, and what is proper language to be used in the Constitution of the State of Connecticut and I don't think these are proper words. However, this amendment is a vast improvement of what was printing in the bill originally and if it's the best we can get, I accept it. Let me while I'm on my feet say something about carbine cannons. I'm glad Senator Stanley went out. The nuisance carbide cannons are extremely objectionable things day in, day out, hour in and hour out to many of our constituents. I am for the bill and everybody else has talked about it and I'll do so right now, myself, I don't want to hear cabide cannons now or later.

THE CHAIR: (as the roll call vote)

Any further remarks now? Question is the acceptance of Senate Amendment Schedule "A" to resolution No. 160 amended also by House Amendment Schedule "B". We will vote by roll call. The Clerk will announce that a roll call is to be taken.

SENATOR BARRY:

In answer to the distinguished Senator from the First, as to the expense of annual sessions. The Eagleton Report on page 35, the cost of legislative operations is greater under annual sessions than it is under biennium sessions was not supported by fact. A 1965 study conducted by a Florida Legislative Council compared the annual per capita cost for legislative

Mr. President, I move acceptance for the Joint Committees favorable report of raised H.J.R. 160 Resolution No. 160 as amended by the House, House Amendment Schedule "B" and as amended by the Senate Amendment Schedule "A".

Mr. President, I think that a great deal has been said about the merits of annual sessions as opposed to our present biennial sessions already. However, this is a great departure from what our history has been for some 70 years and I think a

April 22, 1969

Page 50

few remarks should be made about the history of our general assembly and about why we should adopt this resolution. And I would point out that from 1638 until 1819, members of this general assembly came here in April and in September of the same year and during that period of time, held 365 regular sessions. From 1820 until 1887, annual sessions prevailed here. From 1899 until the present time we have met biennially. You might be interested to know, we referred earlier about the infrequency of special sessions. Back during the 18th and 19th century, there were a great many more special sessions and they were held for such things as, defense against Indians and defense against the Dutch and defense against Pirates and Privateers, all of which, problems we don't have today so perhaps, that's the reason we don't have special sessions.

I want to comment about the statistics of other states. In spite of what the air it all, Legislative Service had to say, your up to date figures show, that 27 of the 50 states have annual sessions and that seven of them are restricted. I might also point out that Ohio, Illinois, Tennessee and Vermont will hold annual sessions during 1967 and '68 by not adjourning sine die to the Constitutional amendment. In 1967 in New Hampshire went to a referendum and the people of New Hampshire voted for annual sessions. However, they put the question wrong on the ballot and it was visited by the Supreme Court. There is a trend toward annual sessions as our business becomes greater,

April 22, 1969

Page 51

as our budgets become greater and the business of these states become more and more busy. In 1941, there were only 4 states that met annually. In 1950, there were 10. In 1960 17 or 18 and today there are 27. Now, why should we have annual sessions? I will be very brief, certainly all of us would agree, I would think, that we can predict that if we are to be the power of the purse, if we are to be able to make the budget and if we are to approve the budget and to give the appropriations carrying out the items of the budget then, we stand a far better chance of having a balanced budget if we do this over a twelve month period rather than over a twenty-four month period.

All of us know that the Governor begins to hold hearings with the departments in late summer projecting some thirty months ahead. It takes the work of a Solomon to predict the needs and economy of the State of Connecticut in that period of time. Certainly, to get this State on an annual budget would be one of the great motivations of having annual sessions.

Secondly, I would think that we would have a much better professional staff and we should have a much more professional staff in this general assembly. We should have fiscal advisors independent of the legislatures, it seems to me. And not have to rely solely upon the budgetary department. I don't think we're going to get that fiscal advisors, if we don't meet here annually. I don't think we're going to get the staff of high-quality unless we are here every year. And certainly, if we are

needs and deficiency of our times. It enables the legislature

April 22, 1969

Page 52

here during some form annually, we're going to be better able to meet the needs of the people which arise after the June adjournment of the odd numbered year.

Our interrelationship with the Federal Government, it seems to me, is another aspect of why we should be here every year. And so, I think the system is compelling. I think we've made it more compelling here today. And I would hope that between now and November of 1970, if this should receive the three-quarters necessary here. That those of us, who feel as I do, and those of us who feel as most of us do, would be able to go to the people and to say that this is not a self-serving bill. That this is not something that we want for ourselves. That this is something that we want so that the business of the people of the State of Connecticut and the Government of the State of Connecticut can be more efficiently operated. I move adoption.

SENATOR BARNES:

Mr. President and members of the circle, I rise to support the resolution. It seems to me that this is perhaps one of the most important pieces of legislation that this session will pass at this time and if with unified support from both political parties, the voters see fit to act on this in 1970. We will have started the process of bringing the Connecticut Legislature into the 20th century. The most important three reasons, it seems to me and perhaps in order even would be that it enables the legislature to respond faster to some of the urgent, social needs and deficiency of our times. It enables the legislature

April 22, 1969

Page 53

to react on a more timely basis to changes and to programs, all Federal policies and finally, unquestionably, it will ease the budgetary task, make it much easier, make it more exact to anticipate with more accuracy revenue estimates. I would guess that the run away deficits that we are presently experiencing in this state, might have been avoided if we had had annual sessions. So I submit to you, Mr. President, that the resolution. So, in general, I would urge that we vote on this and I would hope that we might vote unanimously, if not, hope that we could secure the necessary three-quarters margin to bring this before the voters in 1970. Because I am convinced that once we go on annual sessions, the State will be better run. It will be more responsive and our legislature will be more responsive, too.

SENATOR MARCUS: I feel that I should stand in support of this. Mr. President, I don't need to say, that it comes to a surprise to anyone, that I rise in support of the resolution. Mr. President, I submit to you that Connecticut has been very fortunate over the past years by having many devoted, conscientious legislators on both sides of the aisle. I think it's very obvious, however, that we can't afford to be drag picking, but is screaming into the 1970's. That the complexities of our society require and in fact, demand, the legislature meet on an annual basis. I think it's been sheer luck that we've managed as well as we have up until now. Connecticut, 1970 and 1971 and the future can't afford to operate and cost factor has been intro-

April 22, 1969

Page 54

duced. I don't think we can afford to operate without annual sessions. I think we have to forget about the horse and buggy days. We have to forget about the days when government was enacted via a town meeting. Those may very well be glorious days of the past but they're gone forever. We now have days when government has to react, react rapidly to the many problems that we all face. So I submit to you, Mr. President, that the resolution before us, as amended, is something which will be good for all of the people of the state. And I am very hopeful that we will receive an almost unanimous vote, in this circle, on behalf of the concept of annual sessions and I look forward to working on behalf of the enactment by the people of the State.

SENATOR ALFANO:

Mr. President, I feel that I should stand in support of this bill, this resolution. I feel it's long past due. The State of Connecticut should have adopted annual session bill years ago. We are operating, in the State of Connecticut, as what is known as big business. By big business, I mean, we are handling a budget in excess of two billion dollars a year.

It is inconceivable that any business organization, that is well-run, has its board of directors meet every three or four months every two years in order to operate this business. I feel also, that it is inconceivable to think that any type of government, even our smaller governments, don't expect our school districts or our school boards to meet biennially, four or five

April 22, 1969

Page 55

months every two years. None of us expect our City Council that operates the City or Town Government to meet four or five months every two years and properly and adequately operate the government of the community.

I think, too, the general assembly is a form of the people expect to go to, to redress, to have their problems solved. My constituents annually, after this session adjourns, I find that they are calling me on the telephone, their writing letters to their legislator. It is very difficult to explain to them sure you elected me, for a term of two years, but basically I went out of office in June. I served for five months. My name is still your Senator from the Seventh District but my authority as your legislator expired in June. There is nothing I can do to help you, handle your problem. An elected official should be able available and accessible to his constituents, to the people of the state, at all times. I think, at least, with this annual session bill, we can cope with the problems of the people they can contact their legislators and expect results from them annually not only once every two years.

SENATOR EDDY:

Mr. President, I rise primarily just to make some passing comment on this bill. I'm going to support it for I think a rather weak reason. I campaigned for it. Everybody who said, where do you stand on annual sessions, I said, I'm for it. So I'd have to repudiate a lot of promises now, to say that I'm

April 22, 1969

Page 56

suddenly against it. But I think that it's fair, at this time, since it will go to a referendum, I feel confident, to at least, remark on a few thoughts, that might be given as people vote on this. So you do it? You have all the services you need and your One is, that the character of this general assembly, of both the house and the senate, is going to dramatically change. The type of people who will be able to serve up here will change. No longer will anybody be able to do this, you might say, a part time basis. There are many people in this circle, who just would not and could not do this, if they were up here on a permanent basis. Now, this doesn't mean that the new faces here, will not be equally good. I am not implying that. There will be more retired people, there will be fewer women, there will be fewer young men. Young men just won't be able to spare the time. It's going to change this general assembly, unless, and I have no doubts about that. I heard statistics from Florida about how it doesn't anymore to have annual sessions or biennial. I don't think they have to heat their capitol, that may have something to do with it. But at any rate, I think all of us with common sense, know this is going to cost the State of Connecticut more money. Now, maybe it's more efficient. Maybe it's more, but it's going to cost the state more money to have annual sessions. I think Now, secondly, or possibly last, I find it difficult to say this without throwing in a little partisan comment, and I

April 22, 1969

Page 57

don't think I'm going to. But, you know, the State of Connecticut, year in and year out, has been well run. This is what always I'm proud of, when people come in from New York and they say, how do you do it? You have all the services you need and your taxes are 40% lower than New York? Rhode Island, we're always being compared, you know. Other states have this, we should do it. I said, sometimes, I'm glad that we don't have what these other states have. Because we seem to have a pretty well run state, here. Now, I think one of the reasons that a lot of us are now going to vote for this, is, there seems to be a sort of prestige, in our Administration. It sort of shell-shocked and we think that if only we could be up here every year, we wouldn't have this crisis. Maybe it's true. But if we got an administration, that possibly wasn't so tired and didn't have this shell shocked defective probably we wouldn't need annual sessions. I don't know. I'm going to support this bill. Let the people have a chance in it but let them also know this marks a real departure. There's going to be a change in government. It is going to cost us more money. Thank you.

SENATOR FAULISO: also the distinguished Senator from the Fourth.

I don't think we have to worry about heat. After all, we could always generate plenty of heat in this capitol. But I rise to pay tribute to the distinguished Senator from the Fourth. I think he made an excellent presentation. He presented the facts. He presented the law. I won't have time to review his

April 22, 1969

Page 58

citations but I think he made an excellent case out of it and I'm going to vote for this measure.

SENATOR STANLEY:

Mr. President and members of the circle, I address you today, with all of the respect that you deserve and I stand in opposition to what I'm sure most of you, will vote for. And I do it because I do believe, deeply, that the benefits that will accrue the State of Connecticut, will in no way be commensurate to the state.

I heard it said here, that those who would stay with what we've got would be horse and buggy. I don't believe that's true. I think the comment from my fellow Senator made, that we have earned the respect of other states in this country. That we have been a pace setter. That we have not raised taxes when those around us have. I think it's pretty good testimony to the fact that whatever we're doing, we're doing right. At least in principal. I feel, very deeply, because I campaigned against annual sessions. I should speak and I should vote against it. But I would say this, in reference to the horse and buggy age and also the distinguished Senator Clark Hull, who mentioned we must be close to the people. Who, in this circle, has been able to answer the letters they receive? Who has the secretaries? Who has the staff? Last week, I got 438 letters and I don't have a secretary. And for the past week, we were unable to contact any department heads cause we didn't

April 22, 1969

Page 59

have a telephone book and they changed the numbers. And I cannot make a call anywhere in the State, from my home, except, by paying for it myself. And I have no research staff, although I'm Chairman of two committees. I think we must look at the total. And I think before we go into annual sessions, the people of this state, and the State of Connecticut, would be well served if we modernized. This is only the second session, that we have met after reapportionment. How the system will work can only be judged by one full session and a fragment of the second. I, personally, agree with those that say it is going to cost the state a great deal more money. And if you want annual sessions, and if indeed, you want to communicate with the people and be in touch with them, there are other alternatives that I suggest, perhaps, more workable.

I haven't heard anyone support the idea, that we might meet one day a week, every week, every year. Which would put you in very close touch with your people. I would say just one other thing and let me close with this. I will vote, today, as I intend to vote in the referendum. In opposition to annual sessions. But if the vote were close, here today, and if the people were to be denied the opportunity to vote on this question and in fact, they will make the decision, not us, I would vote to put it to a vote. I, honestly, believe, that the deficit, in no way, can be attributed to the fact that we don't meet twice a year. And I would go counter to those who say it does.

April 22, 1969

Page 60

I think that if we did meet every year, the deficit would be greater than it is. Maybe we would have raised taxes sooner but the expenses would have been greater. So having said that, let me say, I do not believe when the question is voted on, by the people, that I will be in such a minority as I am in the legislature, here in Hartford, this year.

SENATOR RUDOLF:

Mr. President, I rise to support this bill. How can you possibly forecast the economy of the State of Connecticut two years prior to the end of the legal session? All of us in this chamber know, that it is impossible. And I have said over and over agin, that if Governor Dempsey, has the ability to forecast the economy of this state, at the beginning of a session and the session ends in June, that he should not be Governor, but, he should be a very wealthy financeer on wall street.

However, Mr. President, I would like to say this, that this general assembly, is taking a giant step ~~efr~~ forward in the right direction, today. We can ~~make~~ the various improvements, that Senator Stanley has mentioned, in his remarks, as we go along. It is going to be difficult. It is not going to be easy approaching a new method of legislating. We are all going to have to make sacrifices. Because there is nothing in sight, of increased salaries. And the general public must be made aware of this. We are going to be asked to come back the second year, sacrifice, make ourselves available, to the general public

April 22, 1969

Page 61

and consider the important legislation, before us. I support the annual session bill.

SENATOR LUPTON:

Mr. President, I rise to support this bill. Although, I have to say that I do so with an admission of defeat. I agree very much, with what the Senator of the 19th has said. And I'm even going to reserve decision on how I'm going to vote on the referendum. But I believe, today, that the over-riding principle is that we have a continuing legislative body in this state, which, works constantly in a coordinate position, with the Executive Branch. Something we have sorely missed, I believe, in recent years, particularly. But I say, I am here to admit defeat because I have been trying to sell this general assembly for years, on a one day a week legislature which I think would fit very well, because we are, geographically, a small state. However, I'd like to read these few lines, in supporting the bill because I think they give my position more clearly. Reluctantly, I am here to lend support, however, I contend the more we meet, the more we'll spend. Reluctantly, I can see a more used legislative plea with no more room for you and me. One session day, each week, just one would get the people's business done. And any citizen could run. Thank you, Mr. President.

SENATOR AMENTA:

Mr. President, members of the circle, just very briefly, I

April 22, 1969

Page 62

would like to rise to say, that I am going to support the bill and I'm going to support it for a very simple reason. I've been elected, to come to the Senate, to the legislature, and I've been elected to do a good job. And I feel and I hope that usually, when I undertake something, I do a good job. But presently, under the circumstance, and under the conditions that we are forced to work under, we just cannot do a good job. Just take a look at this beautiful peice of wood in front of you. If you want to reach for something inside, you lose everything on top of the table. If you want to answer a letter, which many of us receive, by the hundreds, every week, you just can't do it because there is not the personnel to do it. If you look for a little space, where you may want to attempt to write a letter, yourself, or a speech, which you may want to make to your constituents, you just can't do it. This leads up to just one thing. It doesn't make sense that to have all these facilities and use them five months every two years. And this is the reason why I'm going to vote for the annual sessions. I am not so sure that I can afford to come back, under annual sessions. But this doesn't make it any less meaningful. If we are here to do a good job, then we have to have the facilities with which to do this good job. And these facilities are forthcoming if we're going to use them only five months every two years. I think that this is the main reason for voting the annual sessions.

April 22, 1969

Page 64

has been missed. That if we are adequately staffed, we could have our space, desks and telephones and not this situation, where I had to steal a desk in the corner of the Minority room and some one was mixing egg salad on it, when I came in this morning. We, lawyers are so used to being the whipping boys of this general assembly, that its like a way of life now and I don't even get mad anymore. We're people too, you know. And the fact is, it would be easier for most of us if there were annual sessions. Very clearly so, and I've talked to people in New York. And up until very recently, New York State, ended the session on the 10th of April and believe me I think any practicing lawyer would tell you, it would be much easier to be away 3 and a half months and one of these sessions would only be 90 days. It would be much easier to be away 3 months than five months altogether. Because you lose entire contact with you client, your cases and everything else. I don't agree for a moment, a different type of person will be here. I assume the pay is going to go up and these other professional and different type of people who are here, would be exactly the same type as now. But it would be a little easier, on the lawyer members who do so much of the work here whether the opponents wish to admit it or not. It would be a little bit easier, if you had two shorter sessions than one five month session. Now, finally, the argument because we're not efficient. We should not meet is really a difficult argument. Under the brilliant

April 22, 1969

Page 65

Majority leadership, that we have here, we certainly have made some improvements. And when we take over, we're going to make a lot more. And we're going to run this place, efficiently. And we're going to have legislative pay and if we have to build a new capitol annex, we're going to have space and we're going to have postage and we're going to have telephones too.

Mr. Hubert Stone, my distinguished friend, who is the head of the Connecticut Public Expenditure Council, told me that they were going to be against annual sessions. I said, We're the board of directors, of the State. How often do you meet? He said, we have an annual meeting every year. I said, well, if the Connecticut Public Expenditure Council needs an annual meeting, how in Heaven's sake can they or anyone else say that the Board of Directors of the State, doesn't need an annual meeting.

SENATOR LUPTON: This matter for some time past and I think

This is a very historic matter, this matter of changing our Constitution to meet annually. I don't want to be misunderstood, or even deliberately, misinterpreted about where I stand on this. Certainly, it's going to be more convenient for lawyers to come up and other people. That isn't the reason why we're discussing this thing. Certainly, it's going to be more expensive. Because, obviously, the law of experiences of the legislature has always been the more they meet, the more they spend. We don't need to quibble about the actual cost of operating the legislature. That's not the debate.

April 22, 1969

Page 66

It seems to me, that there is a danger, as we openly move into this annual session, as we are planning to do. That it will become a very professional body. And it will not be represented in the way that it has been, in this great State for many, many years. I think it will be a great loss. I wish to be clearly understood when I will predict that it will become professional. That it will not give the opportunities for people who wish to who are hard working, blue collar people, to get away to come and serve here. It won't be easy for busy executives but it will be quite possible for the professionals. And those who do the work, many of whom and most of whom, are attorneys-at-law. I have nothing against them, excepting to say that in terms of their percentage of total population, in the State of Connecticut, they are not truly representative.

SENATOR MARCUS:

This debate has lasted for close to three hours and I think we all understand the issues. Senator Lupton, in his own inimitable fashion, is kind of playing both sides of the fence. The fact of the matter is, none of us, as members of the legislature, should be defensive about the issue of annual sessions at all. I don't think that we, in the Majority are supporting the concept because it's good for legislators. I think we're supporting it because we feel that Connecticut requires annual sessions. Not because it's going to create a better atmosphere for legislators or more staff or automation which of course,

April 22, 1969

Page 67

are needed, and go hand in hand with modernization. But that isn't the basis of the position, of those people that support the concept. I think that there's a clear need for annual sessions. I indicated, I think we've debated the issue, we understand the facts and I would move that when we vote; we vote by roll call.

THE CHAIR:

Any further remarks, on the question? If not, a roll call has been ordered. Ladies and Gentleman, members of the Senate, it is my pleasure, today, on the observance of William Shakespeare's 405 birthday, as was proclaimed by an official statement by Governor Dempsey as Shakespeare's home day in the State of Connecticut. He is currently appearing as, "Benedict" in the Much Ado About Nothing, " His work may be familiar to many of the legislators, for in addition to playing at the Stratford, for two seasons, he has appeared in numerous produc-

tions, The Hartford Stage Company, New Haven's Longworth Theatre. It is my pleasure, to introduce, Charles Coffey.

Now, I would also like to introduce the Shakespeare Minstræls: Marsha Baldwin, Kathy Churchill, John Smith and Charles Metropolis, from West Haven, Connecticut.

SENATOR MARCUS:

Mr. President, I hate to move from Shakespeare back to our local talent, like Senator Hull and Senator Fauliso but I guess we have to live with them for the rest of the session. May we stand at ease and will the Democratic Senators meet in the Lt. Governor's office for caucus.

THE SENATE AT 2:50 P.M., RECESSED

AFTER RECESS

The Senate was called to order, after recess, at 5:35 P.M., The President, in the Chair.

SENATOR BARNES:

Mr. President, I rise on a point of order. I think that this example, this afternoon, is one of the worst yet of coming in to meet at 2 O'clock and delaying until 5:30. The list that we're taking up, this afternoon, apparently is non-controversial, basically. And I would like to suggest, Sir, through you, to the Majority Leadership, that when it gets this late in the afternoon, let's have the session go over to 10 o'clock the following morning. I think it's an injustice to keep everyone here. It's unnecessary and I think it's unfair to the members

April 23, 1969

Page 8

of the press and everyone who is in this body.

SENATOR HULL:

I can stay all night if necessary, I was here at 8:30 this morning, working on various matters. I think it's just as bad as he said it is. I think it's ridiculous, and aggravating. It's not your fault, sir, but it sure is somebody's. That we sit around here all day long. There were no major executives today. Judiciary is over and had a day off. We stare at each other and giggle and laugh because we're so embarrassed and when the public comes up and my school children come up and they say, what time are you going to start? I say, I have no idea if it's going to be four or five or six. We're just a small minority here, and no one pays any attention. But the public is paying attention. And many of these good Democratic Senators, here are paying attention, too. Mr. President, I think it's gone beyond just the inconvenience of people. As I say, I'll sit here 24 hours a day, if necessary but it's a poor way to run the people's business. I hope with your great influence, in this state, Mr. President, and in this august chamber, that you will convey to the leaders with whom you work, the feeling of all of us here, both parties. That this has gone too far. Why can't we come in at 11 o'clock in the morning, get the business done. If there has to be a two or three hour Democratic caucus, for reasons which have been outlined in various columns. We could start at 2 o'clock, promptly. You

April 23, 1969

Page 9

know, Mr. President, when we go to court, one of the nice things about it is the great tradition. At 10 o'clock, it's almost magic, you could set your watch by it, the Judge comes out and that's part of the dignity of the courts. And I think it's part of the dignity of the Legislature, if we got serious about it, and when we say we're going to meet, meet. Thank you.

THE CHAIR: and may File 418 go to the foot; page 10, File 425

421. Your message will be taken up with the leadership.

SENATOR RUDOLF: ready; all other matters be held retaining;

Mr. President, I'd just like to say that there are many of us that travel many miles to come to the capitol. And I think that many of our families would appreciate having dinner with us, once in a while. It would bring some decorum back to the household, I think.

SENATOR HICKEY: all other matters are ready;

I think I have further to drive than anyone else, about 80 miles, so if the speeches are over, I'd like to go to the Calendar.

On the Calendar, Mr. President, Page 1, may we hold Files No. 31, 59 and may File No. 160 go to the foot. Mr. President, this concerns licenses for school bus
drivers. This will give the operators of school buses. This
is a part time operation, 5 hours a day and it enables the
operator to perform the service to the local boards of educa-
tion, at a reasonable cost. I hope the bill passes.

SENATOR BARNES: What at least I think, that bills that come back

From Mr. President, I rise to oppose this bill. It seems to
me, that the difficulties that are often read about and that
we know from our personal experiences, today in terms of safety
as well as discipline on the school bus, lowering the age to
19, would be a very dangerous move. Also it seems to me, it is
inconsistent with other action that we have taken recently,
by this body, in which we prevented drivers under 21 from giving
instructions on the road. If drivers under 21 are not qualified
or sufficiently able to give instruction to other drivers on
the highway, it seems inconsistent to suggest that they qualify
to drive a school bus, where the lives of many children are at
stake. I would look upon this as dangerous legislation and it
doesn't seem to me, to be sufficient reason for imposing it has
been advanced.

Mr. President, I wish to point out to the Senator Barnes, that each driver must be found capable by skilled inspectors of the Motor Vehicle Department. He also must pass a rigorous requirements of the school bus owner, whose very existence depends on the performance of safety and efficiency. I would like to further point out, Mr. President and members of the circle, that this bill was supported at the public hearing, by the Motor Vehicle Department, Connecticut Motor Association, the School bus Division and the Easter School Bus Contractor. I might point out, that at least 5 cases, the boys that come back from Vietnam, trying to get an education and they are very much interested in this bill. I hope it passes.

I rise to support the bill. I talked of this in the April '64, special session which we had on reapportionment. I had so many qualified young people, down my way, in whom I have faith

and had my own children ride on the buses, who happend to be of this age. I think they are sound and sensible and I'd just as soon have a 19 year old drive my boy to school as a 70 year old. I think that it depends on the person involved and we should not have any artificial barriers to age.

SENATOR HOULEY: Now have come back from fighting in Vietnam,

and Mr. President, I merely want to comment in particularly the smaller communities, this has implications, grammarfications. In many of the town, particularly in the Tolland area, is at a point where the odd hours and the part time of driving aschool bus is reached the proportions where we must og into a new field. In the area, for example, in the Town of Mansfield, many of our young college people are turning to this as a effort and a way of earning additional money. They're responsible young drivers. They pass all of the physical, mental and apptitude tests are concerned. I would like to see this passed.

SENATOR IVES:

I too, rise to support this bill. An echo the remarks of the Senator of the 36th. The small town areas have a difficult time getting shcol bus drivers. I might say that the committee, very carefully studied this question and one reason we wnt to 19 instead of 18, which it used to be, is we felt that by using the age 19, we would not be using High School Seniors but could use college students. And in anser to Senator Eddy's question, Insurance rates on commercial vehicles are not determined by

April 23, 1969

Page 15

the age of the driver but by experience. I think the experience of these young drivers will not increase the rates.

SENATOR HICKEY: remarks on the substitute bill? All those in favor Mr. President, I'd simply like to indicate that I support the position taken by the Senator from the third. He made one very important one. Men have come back from fighting in Vietnam, and been refused employment of this type because of his age. I think that argument alone, is enough to pass the bill.

The amendments have taken care of some serious objections and I feel that in its final form, it's a very good bill and deserves passage by this body.

THE CHAIR: ~~Remonstration.~~

Question is on the adoption of this bill, will you remark any further? If not, as many who are in favor of House Bill 6630 as amended by House Amendment Schedule "A" and "B" and Senate Amendment Schedule "A" will signify by saying, "Aye". Contrary minded? The bill is passed.

SENATOR BARNES:

I rise on a point of personal privilege. Mr. President and members of the circle, we have visiting us today in the gallery, some Cadet Girl Scouts from Avon Troop No. 358. They are accompanied by their leader and a mother.

SENATOR HOULEY:

Mr. President, I rise for the purpose of an introduction. I would like to introduce four of my number one critics, my wife, Helen, my son, James, Francine and Elizabeth, my daughters.

At 2:14 P.M. the President Pro Tempore took the Chair.

SENATOR MARCUS:

Mr. President, I rise on a point of personal privilege. Mr. President with a great deal of delight, I introduce to the circle, some people who should be very familiar to you, your wife, Mary, and four of your children sitting in the gallery.

SENATOR MARCUS:

Mr. President, I rise on a point of order. It appears that yesterday, while the Senate was at ease, and in session, during

April 24, 1969

Page 5

a period of time that Senator Hammer and myself, were engaged in a meeting with the New Haven Human Relations Council and during the period of time that the remaining Democratic Senators were in deliberation in caucus. Reviewing the bills that were starred on the Calendar. Several members of this circle, including the Minority Leader, engaged in a rather childish shoe-banging episode that was reminiscent of what went on when Mr. Krushev controlled things in Russia.

It seems to me, Mr. President, that this is in direct intervention of Rule 3 of the Senate Rules. It appeared to me as if, under the circumstances, a public rebuke should be made by view of the Senators involved. That they should be reminded of their responsibilities to the people of the State, and the other members of the General Assembly.

It also seems to me, Mr. President, that it's truly a fair day, in the State of Connecticut, when a Minority Leader of a major party, condones and participates in this type of activity.

SENATOR ALFANO:

Members of the circle, I definitely feel the people of Connecticut have every right to expect their legislators when in the Legislative Chambers of this Capitol, to conduct themselves with dignity and decorum.

SENATOR HULL:

Mr. Chairman, point of order, I object to you commenting

April 24, 1969

Page 6

Mr. Chairman, before we've had a chance to speak. This is a matter of public significance, in which we are being taught with a public rebuke. I think it is unseemingly and out of order, of you, to make this honor before you have heard from us.

SENATOR MARCUS:

Mr. President, we know, of course, that debate of any sort rule 3 indicates that whatever your decision it may be subject to an appeal. But there is to be no debate at all.

SENATOR ALFANO:

As presiding officer, I must say I can not condone this conduct, of some of the Senators in this chamber, yesterday. We are all elected legislators, of this assembly. We should set an example for the people of this State, of the proper manner of which one should conduct himself not only as public officials but as citizens. Expressing our opposition or our grievances to problems. It is an establish fact, that in our democratic society has been to accomplish this with discussion, negotiation and in the form of this nature debate, if necessary, on the floor of these chambers, by using your voices to express yourself but not with shoes off of your feet. Let's always remember we are always in the eyes of the public. Let's set a good example here, to the youth and to the people of our State. I trust that, we will not have another display of yesterday's episode, again in this chamber.

SENATOR BARNES:

April 24, 1969

Page 7

Mr. President and members of the circle, what started yesterday as a spontaneous demonstration of frustration over the way this chamber has been managed is a protest against the farce, against the legislative procedure, which this chamber has become. It's something that we intend to continue. I respect your word, sir, and this very same citation which you refer to of setting a good example for the people of this state and the youth of this state is something that we have very much in mind. And certainly, the kind of secret debate, that goes on in that Senate caucus chamber, on the Democratic side, and the kind of back-room decisions that are made here, and the abuse of power that is exemplified by the way the Democratic Majority rule this chamber. Is exactly in point, sir. Exactly in point and very much a part of the disillusionment that many of the youth of our country feel at this time.

There's a wide gap, a very wide gap between expectation and reality in this country in a wide variety of ways. But we know also, there's a wide gap between expectation and reality in terms of a political process. We know that the great frustration and discontent of the political process in this country.

What goes on, in this Senate, day after day after day. This Senate is called to order at 2 o'clock in the afternoon and then we as elected representatives of the people, and the news media and other members of the public, who are here interested

April 24, 1969

Page 8

in the public's business, cool their heels while all the important debate and the difficult and important decisions are made behind closed doors. Is exactly the kind of thing, Mr. President, that contributes to the disillusion of our youth.

It isn't necessary apparently to run the House of Representatives that way. But for some reason it is necessary in the eyes of the Majority Leader and others who run the Senate this way.

Now, we were elected to serve in this chamber and have points of view known. We were elected to debate bills out in the open. That's what we're here for. And, perhaps, the demonstration, yesterday, wasn't in the very best taste, but it was one that was spontaneous and it was one that everyone here felt. It expressed the frustration that we have felt for a long time, in the way things are run, here.

There is an arrogance of power, Mr. President, in the way this Senate is being run. An arrogance of power that gags freedom of debate. It's an arrogance of power that puts bill after bill after bill to the foot of the Calendar while later on it may be traded for political purposes. There is a one man rule, in this Senate and I wonder sometimes if the Senators are being used for convenience. I wonder if it isn't being run to accommodate whatever meetings he has. There are 35 other members of this chamber, ~~not-only~~ let alone other members of the public. Of course, sometimes, it is necessary to have

April 24, 1969

Page 9 10

meetings but there are other people who can run this chamber. There is no need to have a non-consent calendar with little if anything on it controversial, hang over until 5:30 or 6 o'clock in the afternoon. ~~here and the way this has been run in the~~

~~most~~ Something more than 24 hours of total time has been spent in this Senate in recess. This is poor scheduling, ~~It isn't~~ necessary; it's a travesty on the legislative process. We are just, tired of being pushed around, Mr. President. And in pushing us around, I might add, in effect you're pushing the public around, as well. Because it is the public's business that's suffering. We may experience the frustrations but it's the public who is suffering from not having these matter debated on in public, out here on the floor, where the arguments can be heard. You know, usually we can ~~hear~~ the arguments that go on in the Democratic caucus room. Not the details but we know that a strong difference of opinion exists in there.

~~Now~~ What's wrong with sharing that with the public? If you have strong differences of opinion, bring them out here, you know we might agree with you. We might be of some assistance. We might shed some light on the argument as it develops.

~~Now~~ This is what the legislative process is supposed to be all about. So, we did what we had to do, yesterday Mr. President. And we shall continue to do this. I have here, in this desk, a symbol, that I intend for you to see, sitting on this desk, sitting on this desk as long as the Senate is run the

April 24, 1969

Page 10

way it has been run in this session. This symbol is going to sit here as long as this Senate is run the way that it has been in the past. As an example, the kind of strong political tactics that exist here and the way this has been run in the most undemocratic process. A way which has called for repression, arbitrary decisions, secret caucuses, occasionally back-room deals and the public be damned attitude.

Now, I say, Mr. President, you can censor us every day of every week, if you wish, that we're in session. We shall continue to protest in any way that we can even though we may be out-voted 2 to 1. We will continue to protest until we can get the public's business out in the open and out in this chamber.

SENATOR MARCUS:

Mr. President, we all are, of course, aware of the fact that Senator Barnes' comments were very much out of order. Your decision was one, of course, that order and decorum be maintained in this chamber. Therefore, I would take it, in effect he is appealing your decision. I also find it rather unseemingly, to become involved in any kind of personal dispute with Senator Barnes. I don't intend to be dragged down, to that level of politics. But, let's just point out a few facts, Senator Barnes has kind of taken the bit in his mouth and he is indicating that somehow the Democratic process prohibits debate on the floor and is not in the best interest of

April 24, 1969

Page 11

the public. Well, I submit to Senator Barnes, no one shuts him off. He may debate and oppose any bill taken up on the floor of this circle. We're not making his decisions for him. Now, if he'd like to be invited into our caucus or that we can explain some of these bills, to him and maybe for a change, get the benefit of some constructive thinking, which we have yet to receive, in the course of this session. Why, you're invited. We'll be delighted to have you. But the fact of the matter is, that the democratic system of caucusing is one which permits us to come out on this floor with greater knowledge of the contents of the legislation that we're going to talk about. With the ability to work out any of the mechanical bugs in legislation and there are many. We all know that there are many mechanical problems in the drafting of legislation, gives us a final review of all legislation before it comes out on the floor.

But the issue of not having debate on the floor is simply an option between Senator Barnes and the members of the minority they can either accept or decline. They can debate any bill that they wish. I might also point out that it's my understanding, that the minority does or at least should caucus on the bills which are on the Calendar. We would hope that they do. There are times that some of the questions that have been raised that we can only doubt that they have any working knowledge of the contents of these bills. The fact of the matter

April 24, 1969

Page 12

is, that every Democratic Senator, has a great responsibility in this session. Every Democratic Senator is chairman of a major committee. As a result of this, it's almost impossible for the Democratic Senators not to take time out to handle their committee functions and therefore we have no options but to continue with the existing procedure. And I point out to you, what difference would it make, the members of the news media, the people of this state or to the members of this circle, were we to meet in caucus at 2 o'clock and convene at 4 o'clock. But obviously, it makes far more sense to open to be in the position to receive new business and to caucus and then to come out, when we've had the time, to review and analyze the legislation that will be taken up. I don't feel that the caucus requires any defense. I admire Senator Barnes for his political play of attempting to really convert what is simply bad manners. Something which means every member of this legislature into a political plus but I don't think any of us are going to buy it.

SENATOR HULL:

Mr. President, yesterday we celebrated the 405th birthday of William Shakespeare. He said it better than I. I say, to you, et tu, Brute? If Senator Marcus had made such a politically inspired and unfair rebuke. I wouldn't have been surprised. But, Sir, you and I have been friends, here, and we will continue to be so, despite our differences, ever since I've come

April 24, 1969

Page 13

up here. And your fairness and your wisdom were always evident.

What is it you're afraid of that we've frustrated the minority representing the people have to make this symbolic gesture to say, let's get on with the business, of the State.

How can you, knowing us, knowing your Democratic Senators and I won't name the ones who have talked to me, feel about this disgraceful conduct, rebuke us? Well, I say, Sir, when my political career is done with stripes and badges, I have on my chest, I'll wear proudly the ribbon of rebuke. So let the record show, that I banged my shoe and my shoelaces on both shoes are loose right now. And let the record show that I was in my chair at 2 o'clock today and any time since the first Wednesday after the first Monday in January.

Mr. President, there's something much deeper here, than may appear on the surface. And that is the danger of one party government, under those who do not believe the people should be represented in a two party system where the Minority stands up and speaks for itself. I do not apologize, Mr. President, excuse me, Senator Marcus, for my manners. I think he has very poor manners. When he has the public wait and he really hit me yesterday, as I sat on the floor, to the very courteous and fair reception I received from that gentleman, Lt. Governor Frassinelli, when I said that my school children from Danbury asked, when is the Senate going to go into session and I said, I'm very embarrassed, I don't know.

April 24, 1969

Page 14

Now, the point is, the public is told. If it isn't going to say so downstairs in that little blackboard that our Superintendent puts up, every morning. If it isn't going to say 2 o'clock so the public can come and know what's going on here. Why put it on there? Why not put Marcus time on there? Not daylight saving time or Eastern Standard Time. Whenever the Majority Leader decides we're going to come out and do our little soft shoe for his benefit. Well, we're not going to do it. Mr. President, would you not agree, as an old friend,

Mr. President, the business of the people of this state can be conducted much better but if you want to get down to the real reason, for this. Why couldn't we come here at 11 o'clock in the morning or 10 o'clock and then caucus. And get going during the day so we can make use of our time. So that the news media can know what time to expect and most importantly, so that the public can have some respect for this body. I'll tell you, sir, that when the history of this general assembly is written, we're going to have much more respect for shoe thumpers than those who have tried to bottle us.

SENATOR HULL:

THE CHAIR:

Senator Hull, I just want to say, to you, that I do not feel in the position to answer your comments in relation to me.

I will do it at another time, when I'm in my seat on the floor

But I want it clearly understood, that I am not reprimanding

April 24, 1969

Page 15

and rebuking anybody. My comments were strictly as I understand the rules of this Senate. It is my understanding that we are to conduct ourselves in this Senate with dignity and decorum. My comments were strictly in relation to the type of procedure that was carried on here in conducting ourselves. That strictly was my remarks and was not a reprimand of any kind, Senator Hull.

SENATOR HULL:

Mr. President, would you not agree, as an old friend, whom which you still are obviously, and a gentleman and a great statesman, with your family here. Would you not admit that the decorum of this body would be much enhanced, if we met when we say we're going to meet?

SENATOR HULL:

If you permit me to answer it and the body does in my position. I would say that we've been elected to this general assembly. And if we have to be here to conduct our business 24 hours a day, seven days a week, during that period of five months, it is our job to be here at the State Capitol and in these chambers. And I feel, sincerely, that we have a tremendous task to accomplish in a very short period of time. And I realize you want to get home to your families, and so do I. But I think we have an obligation here, to carry through the business of the State. Regardless of how long it takes, how many hours it takes and no matter how much effort we have to

April 24, 1969

Page 16 17

put into it. If you didn't want to run for political office, if you didn't want to spend all that time here, you shouldn't run. Now, that's my personal feeling on it and I recognize the next person who wanted to speak, Senator Houley.

SENATOR HOULEY:

Mr. President, members of the circle, I am a freshman in this circle but I am shocked, shocked at the lack of decorum in this chamber. I am shocked at the Minority Leader un-audible but again two wrongs have never made a right if in fact there was a wrong to begin with. Now, we've heard the caucus system, criticized severely, and we've heard this with some reason. Permit me, to question, from a neophyte if you will, to offer an opinion. Not to many months ago, I too, questioned the 12 concepts of government, that I had lived with this. I have experienced it and I tell you now, that It's a good system. It's a great system. I've experienced, in my brief tenure, in this chamber, debate that would not be possible on the floor. I've seen devil's advocates, if you will, question every single measure that comes before us. In an effort for better understanding, better sound judgment and I won't go on because, freshmen are not supposed to speak, they are supposed to listen. But I will say this, that I've seen bad taste here today and I'm disappointed.

SENATOR LUPTON:

Mr. President, I would like to refer to the remarks of

April 24, 1969

Page 17

the Minority Leader. Yesterday, we used a totalitarian system to indicate our distaste for this totalitarian type of management we are getting in this session. As you know, sir, I've been here for a good many years. And while I have deployed this arrogance in other years, I have never seen it as bad as it is in this session.

Certainly, we have to have the caucus system. Nobody quarrels with that. But we do not have to caucus in a system that requires a great number of us to sit around at the pleasure of the Majority Leader, hour after hour after hour. If the party wishes and the Majority Leader wishes to caucus, certainly they may caucus. But can't they also schedule? Do we have to come here, as sheep to graze around waiting your pleasure? I think we've been sanctimoniously rebuked, sir, and I resent it and I wish to go on record, publicly and say that what is most important here, is that the public understands how things are being managed. They are not being managed, in my judgement in the public interest. And I hope that this performance sets a two-fold purpose, of alerting them to the issues here, and of awakening their interests, so that the majority arrogance of power may be at least required to do their caucusing at a time when they do not have tie up the rest of us here, who have come to serve them.

SENATOR FAULISO: Yesterday, and when he took off his shoes and

Mr. President, I didn't want to participate in this de-

April 24, 1969

Page 18

bate. I felt that it was unnecessary. I think this little spectacle abominable. The arguments are inaudible. We're attacking each other. This is a disgraceful exhibition. I think we have demeaned this circle. And this circle has a proud history, I am certain. And the reference, et tu Brute, from Shakespeare, certainly is inappropriate, as far as the President Pro Temp is concerned. I think he enjoys a proud record and that record speaks for itself. And that assertion, I'm sure, certainly should not have been made by the distinguished Senator.

I don't know how this thing originated here, but it seems to me, that a point of order may have been a point of disorder. I'm a strong proponent of punctuality. I think there is much room for improvement. We all admit that. I question the means and the tactics which we use here to bring this into focus this into attention. I do believe and I believe this, sincerely, that to adopt the method of that which is purely infantile, to take our shoes off, like the little boys do in the springtime when they run from their school, their homes to demonstrate that spring is really here. To see that display, here, is certainly not right. Gentleman, ladies and gentlemen of this circle deserve more. You're people of intelligence, of high calibre. And you know, to be on the light side, when I saw that exhibition, yesterday, and when he took off his shoe and suddenly senses that there was a bad odor here an abundance

April 24, 1969

Page 19

of it and then when I see the shoes here, demonstrated as an exhibit, it reminds me of a case that I tried of an individual who was accused for drunken driving and I thought that I would exhibit the histrionics, which later on I regretted. I had him bring in his extra wooden leg and a lady juror fainted. That cost me the case and I hope it isn't the situation here. I hope that that shoe need not be exhibited as a means of focusing attention that we do need improvement within our own house.

I think there is another avenue, another way, another means of producing results, satisfactory results. I subscribe to improvement. I believe in it, sincerely. I don't believe that people of the opposite party, because they are in the minority, should wait unduly, for the due process of this legislature to commence. I think you are entitled to the courtesies. I hope that we can before the adjournment of this session, bring about some results. I don't know what the future will bring. But I say to you, that the taxpayers deserve more. And you know, again, to be on the light side, I hope you haven't damaged the desks, so that the taxpayers haven't been prejudiced. So put your weapons away. Let's work together. There's much work to be done. There's good legislation pending. Let's do it together and let this session be a glorious one. Thank you.

SENATOR MARCUS:

ALL THOSE matters set forth, by the Majority Leader, shall be recomitted, all other matters shall retain their place on the Calendar. We will now proceed with the business on the Calendar.

THE CLERK: It is a good bill. We feel that it will

Cal. No. 255 File No. 196. Favorable report of the Joint Committee on Human Rights and Opportunities. Modified Senate Bill No. 167. An Act concerning Summer Employment for Youths Under Sixteen Years of Age. Clerk has an amendment.

On lines 12 through 16 delete all of the entire material.

In line 12 change the period to a comma and insert in lieu thereof; "summer work recreation programs sponsored by a town, city or borough or by a human resources development agency, which has been approved by the labor commission.

SENATOR FAULISO:

Mr. President, I move for adoption of the amendment. A great deal of work went into this particular proposition.

However, when in its final stages, we discovered after consulting with several of the agencies, particularly with the Labor Commissioner, there was a substantial number of minors between the ages of 16 and 21 on the labor market. And to enable

April 24, 1969

Page 22

minors from 14 to 16 to receive summer employment, this would do violence and prejudice to the other minors who are above the 16 age group. So that we had to work out some type of a plan which would give these minors 14 to 16 an opportunity to work and we restricted it, as the amendment provides to summer work with recreation programs sponsored by town, borough, or political subdivision by the human resources development agency.

We feel that it is a good bill. We feel that it will attract a number of minors in the ages of 14 to 16. I know it doesn't go as far as we had planned originally but we feel that it will reach an appreciable number of minors between the ages of 14 and 16, who wish to take advantage of this program.

provisions of section 45-29j of the 1967 supplement to the general statutes had John P. Keating elected said option as provided in said section."

SENATOR ~~JACKSON~~ PICKETT:

Mr. President, if I may comment on the amendment? Judge Keating died on November, 1967 and at that time, served as Probate Judge for the District of Stamford since 1949. Special Act 558 provided for retirement of Probate Judges which became effective in January 1, 1968. If Judge Keating had been living on the effective date of the enactment, he would have been eligible for retirement under Section 45-29f and could have elected a husband and wife income retirement option under the provisions of that section. In that case, his wife would have received the retirement allowance. It seems that Judge Keating's case presents a problem not contemplated by the act providing for retirement of probate Judges. It appears only fair that such retirement allowance should be paid his wife and therefore, I propose an amendment providing that his widow receive the same pension as he would have received, if he had retired immediately subsequent to the effective date of that section. It appears only fair that Judge Keating's widow should receive the pension since he had paid so much into the retirement fund and had served so long as Judge of Probate. He had paid his Social Security taxes on a Probate Court income. I want to note for the record that, the payments come the probate retirement fund

and not the general fund of the State of Connecticut. I move the adoption of the amendment and hopefully, Mr. President ask, if you would rule it a technical amendment.

Mr. President, the remarks that I just made concerning Judge Keating, in a large part, pertain also to Judge Laden, the Wallingford Probate Court. I shall not belabor the record with additional comments but merely will point out that Judge Laden, situation falls about the same category as that of Judge Keating's and for those reasons, I move for the passage of the bill, as amended.

This bill would increase the penalty for the illegal practice of medicine, for the reason that prosecutors have been reluctant to prosecute because the present penalties are so low that it doesn't even seem justifiable to incur this court cost. It has happened that those who have been accused of practicing without a license, have been able to just move out of the State and continue to practice. This bill would increase all of the penalties. An Act concerning a Study of Existing Water Rights.

SENATOR STANLEY:

Mr. President, I move acceptance of the Joint Committee's favorable report and passage of the bill. This bill simply addresses itself to the Water Resources Commission requests that they study existing water rights in the State of Connecticut and make appropriate recommendations, to the next session of the General Assembly.

SENATOR EDDY: because of many archaic water rights, they do

We're operating with such inspiring efficiency here, today, I hate to break in. But this is an important bill. It potentially is an important bill. In some work, I did, with the Clean Water Task Force, it became evident to all of us that the existing water rights, the law that govern these are in a state of chaos in Connecticut. And this bears very importantly on the matter of water pollution and I merely mention this to call attention that if this bill is going to be passed I'm for it. It's a good bill but it's potentially a very important bill. The way that our water laws are written is quite different here in New England is quite different where water is scarce. And what we must realize is that nobody owns water. Water is owned by everyone and I hope that this report when it comes back, will enable this area of ours, which is always been water rich and has taken our water for granted. I hope it will give us all a new insight of how important it is. I urge passage of this bill and I also urge that this report be dealt with with the care that it deserves.

SENATOR STANLEY:

Mr. President, I must speak for the second time. I quite agree with my colleague. I didn't comment to a greater extent because I was author of the bill but the question that you raise that nobody owns water. It is our hope that we will determine the fact that nobody does own water. But in the State of Connecticut today because of many archaic water rights, they do

SENATOR AMENTA:

Mr. President, I move acceptance of the committee's favorable report and passage of the bill. This bill provides for combined public hearings to correct the present public hearings required by statutes to eliminate the confusion and the duplication of that incident to the present statutory procedure. Section 731j requires that a separate public hearing be held relative to taking of open-space land for highway purposes. In addition to the public hearing required by Section 59-58 or by any other section or statutes. This is usually a duplication hearing and you have the same arguments by the same people. The correction to this bill will require that both the governing body of the Municipality owning the land and in which the land is located agree with the Highway Commissioner that the compensation of these two hearings will be in the best interest of the State and the Municipality concerned. It is estimated that combined hearings will reduce the Highway Department's expenditures by two thousand to ten thousand dollars for each hearing eliminated. SENATOR STANLEY:

Mr. President, I rise for a point of personal privilege. Earlier this afternoon, there was some discussion about the hardship of these late hours, upon the families of the Senators of the circle and I thought I would provide ample proof, at

April 24, 1969

Page 69

lessat for a family from Norwich, representing the Senator from the 19th District. I understand prior to coming into the Chamber they went shopping to better the economy of the State of Connecticut. I would like to introduce my wife and two daughters.

THE CLERK: Motion of Pomeroy, of the requirements of the State

Matters removed from the Foot of the Calendar: Cal. No. 193. File No. 113. Favorable report of the Joint Committee on Claims. Senate Bill No. 219. An Act Providing for Payment of the Korean Veterans' Bonus to William R. Morgan. SENATOR MARRASO:

Mr. President, I move for the acceptance of the Joint Committee's favorable report and passage of the bill. This is merely enabling a veteran to claim some bonuses which are rightfully due him. I think it is a good bill and should pass.

SENATOR MOORE: Motion that exists in the case of a validating act.

Mr. Chairman, I would like to declare myself, in opposition to this bill and the rest of these bills. As I understand it, they were put at the foot of the Calendar, for the purpose of further investigation, into the numbers of veterans in this state, who would qualify for these bonuses and that a figure came back in the neighborhood of ten thousand. It seems to me, that by taking these bills up in a peace meal fashion, we are evading the issue here. These people are receiving preferred treatment because of the fact that they knew that this is a means of passing a special bill to grant them a bonus and therefore, have access to a Legislator to place the bill in the

April 24, 1959

Page 70

hopper for them. It seems to me, the approach here to approach this issue headon, we would simply extend the period of time available to all veterans to apply for veterans' bonus. And in that way we will be facing the real issue. And then it becomes a question of finances, of the requirements of the State to pay these bonuses to many as are deserving and we could face up to this issue on the true ground which an issue should be faced and not pop-gun, peace-meal, round about and preferential way.

SENATOR MANCUSI: It is discriminatory. It favors those who

Mr. President, the fact of the matter is, that it would almost be impossible to determine how many veterans there are from the Korean War, Vietnam, the Second World War. We might in fact be entitled to a bonus. This really is no different than the situation that exists in the case of a validating act. We have no way of knowing how many people really should have late notices validated. So it's pretty obvious that we have to take these situations one at a time, and make a valid determination. It's true that these were at the foot of the Calendar. We investigated the situation in each instance. We're satisfied these people served this country, honorably and well and they're entitled to these bonuses. There is nothing of course, preventing any other people, who may have the same claim for applying in the same fashion. I really think this is a bill which is serious enough in its import, as far as the principle is concerned. So that I would move that when we vote, we vote by roll call.

April 24, 1969

Page 71

SENATOR BARNES: Mr. President, for the benefit of the boys who have

Mr. President, members of the circle, I rise also to oppose this bill. I think there is a difference and a distinction between these and validating acts, in which we're extending times for the purpose of giving people an opportunity to press a claim. Here, we're passing an act which would clearly entitle these veterans to a direct payment from the State. There is no question about the fact that they did participate in the war. The only point is that processing these pension benefits or these claims in this way, is discriminatory. It favors those who know someone, who have friends here, in the legislature, who bring the bill in. And to underscore, Senator Moore's basic point, it is simply this, if in the wisdom of this legislature people who have not only applied by the deadline should be entitled to this bonus, then extend the deadline. But don't operate on a peace-meal basis as is being done here.

SENATOR BARNES: I have to disagree with my distinguished colleagues. These veterans are entitled to receive a bonus and they have gone through a very human era. As the Majority Leader has said, we're continually passing validating acts, to those who have missed a legal deadline. In fact, today, we forgave a Judge for not filing a judgement as he was supposed to. Many of these cases represent human error, which are far more reprehensible than these veterans. I would like to see a general act passed which would give them all a bonus. I urge the passage of these

April 24, 1969

Page 72

veterans bonus bills, for the benefit of the boys who have served their country. Any privileges that are not available to SENATOR MOORE: The privilege is available to all qualified veterans.

SEN. Mr. President, through you, I would if I could address a question to the Majority Leader, Senator Marcus. Yes, we were truly taking this up as the issue that it does represent, we have the objection to this being handled in a way that would extend the period of time to all veterans, not in this piecemeal fashion. All people who would need legislation

SENATOR MARCUS: I urge passage.

SEN. Mr. President, at the moment I indicated we have no statistics before us, we have no way of knowing the people who may have been eligible now live in the State of Connecticut. Whether in fact, they are even alive. We do know that there are some 10 or 15 veterans who are entitled to these moneys and have applied for relief of this general assembly. If it is the wish of the minority to deny this wish, to deny these people who are entitled to receive this compensation, when the vote is taken on roll call, that of course, should be their position.

SENATOR STANLEY: As over these claims of these veterans. And I

SEN. Mr. President, may I just comment briefly. The suggestion was made here, that perhaps, some of these veterans are qualifying just because they know a friendly Senator or Representative. In my particular case, I had a call from a veteran, whom I had never met, presented himself to me, explained his position. He did qualify, for that reason he is given consideration. I see

April 24, 1969

Page 73

no reason to deny these people, and I don't think that we should indicate that they get any privileges that are not available to anyone else. The privilege is available to all qualified veterans.

SENATOR DEBOST:

Mr. President, I would just like to add that I, as far as, veteran, rise in support of this bill. I think these veterans have served their country honorably, and because of some inadvertent flaw, I don't think they should be denied these bonuses. I suppose if we attempted to extend the deadline, there would still remain some people who would need legislation of this type. I urge passage.

SENATOR HULL:

I do resent the implication that these are privileged people. I rise to support this bill. I just don't have it in me, to vote against giving a veteran a bonus, which he has earned and well deserves.

THE CHAIR:

When, through no fault of their own, they have not available. The Clerk will announce a roll call vote.

SENATOR SARBAYO:

This bill or any bill with the feeling that there is something. Mr. President, I'd like to add to the distinguished Minority Leader and to the gentleman from the 20th. I think that the committee has gone over these claims of these veterans. And I think that if we were to set up a general extension of the benefits, that we would be putting the State at an additional handicap because we'd have to put up another commission to look over all the reports of these various people filing. We don't know who these people are. We have to go out and seek them and I think as they come through we do go over them pretty closely and

April 24, 1969

Page 74

see that they are valid. I think that we should support all these bills.

SENATOR MOORE:

Mr. President, I would just like to add that I, as far as, veterans are concerned, I'm one myself, and I have a son who is also a veteran so I have no position against veterans. What I am saying, here, is any branch of the public should have the opportunity treated equally and not in a preferential manner. As this type of legislation provides.

SENATOR TANSLEY:

Mr. President, I do resent the implication that these are privileged people who have certain recourse to the Legislators that other veterans don't have. After all, it is our function to do what we can to meet the needs of people and in particular to help them, when through no fault of their own, they have not availed themselves of a service which was given to them. I don't vote for this bill or any bill with the feeling that there is something shameful about people who have come to us and asked. I don't feel that we necessarily, are close friends to these people who have asked us to do these things. As Senator Stanley pointed out, someone came to him and asked for aid, someone he never met, a person who deserved help and if any person in the same situation came to anyone of us, we have the obligation to do what we can to help them. I move for passage.

SENATOR SCHAFFER: assembly;

I move adoption of the resolution. Helen Case Foster was I guess the best word to describe her would be the word, gracious. She was truly a gracious lady. She graced the political scene. In her later years she experienced a very severe illness yet, she still managed to let her presence known. She spoke lively when she had strong feelings.

SENATOR FINNEY: Join her family and friends in mourning her death

I knew Helen Case Foster during the 1960's. She was one of the important people that brought about the establishment of the Child Treatment Home in High Meadows. I was closely associated with her over the years and in the Constitutional Convention of 1965. I think this was a wonderful woman who was devoted to her party and yet sentimentally was devoted to the good of every one in the State of Connecticut.

assembly unite in expressing their sympathy to the family of Jeremiah A. Fitzgerald; and

BE IT FURTHER RESOLVED, that the clerk of the house and senate cause a copy of this resolution to be sent to his family.

SENATOR STANLEY:

I move adoption of the resolution. I think that most of the members of the circle, remember Jerry and remember him well. I think in the true manner of speaking, Jerry was one of us. There was never a time that he would not give of himself to help one of us. There is no man that ever loved the State more than he did. He was a healthy, happy man and this untimely death is a tragedy not only to his family and friends but to the State of Connecticut.

of Lisbon; and

WHEREAS, she was the only person from Lisbon to be elected for three successive terms to the House of Representatives, where she served on the Public Welfare Committee; and

WHEREAS, she served as the chairman of the Lisbon March of Dimes, clerk and superintendent of the Jewett City Congregational Church Sunday School and a member of the Executive Board of the W.W. Backus Hospital Auxiliary; and

WHEREAS, for many years she had been active in the Norwich branch of the American Cancer Society and had served as public information chairman of the Jewett City Chapter of the American Red Cross; and

WHEREAS, we join her family and many friends in deeply mourning her loss.

NOW, THEREFORE, BE IT RESOLVED, that the members of this assembly unite in expressing their sympathy on the death of Rep. Eva Harris; and

BE IT FURTHER RESOLVED, that the clerks of the house and senate cause a copy of this resolution to be sent to her family as a sincere expression of the high esteem in which she was held.
SENATOR STANLEY:

I move acceptance of the resolution. Eva Harris was indeed a very tender and very generous person. She was no stranger to us here. She was one of the victims of reapportionment and served in the Town of Lisbon very well. Her passing is a great loss to the people of Lisbon, to the 19th District and especially

The train will leave at 10'clock from Hartford going to New Haven, Old Saybrook and we're going to the Old Line Country Club. I'd like to have you make your checks for \$45.00. Two years ago it was \$60.00, we're cutting down and I think we're doing very well.

SENATOR MARCUS:

I would like to announce that the Senate is going to pick up its pace, next week and instead of three we're going to have four sessions, beginning with Tuesday and we will be meeting on Friday. That pace will continue until we take up five days. If there is no further business, I move we adjourn until, Tuesday April 29, at 2:P.M.

 judgement it does not belong in the bill proper because it per-
 tains to civil aspect and while I am on my feet I might explain
 that the bill itself requires a promissory executed in connect-
 ion with a sale of consumer goods, that it be stamped in large
 letters "Consumer Note". This gives notice to the purchaser of
 the note or transferee that he takes the note subject to the
 defenses which the purchaser has against the saler.

THE I believe, that this is a good bill. Its an extension of
 the present law concerning home solicitation. Those of us who

Page 28

have had experience particularly in the law, that represent clients who have been cheated and then continue to pay the finance company or the banks because of the fact, because the note has negotiability. Under this bill if there is anything wrong with the transaction, the finance company or the bank takes this note subject to all the defenses that the buyer has against the seller. I think its a good bill and ought to pass.

Will you remark on the amendment, Senator.

SENATOR JACKSON:

Mr. President, after the General Law Committee acted upon this bill, it was called to my attention that the home solicitation sales act passed during the last session of the legislature had the provision for notice to the buyer included in the contracts. It also has been called to my attention that unscrupulous dealers have been taking the position that the law as written does not require this notice requirement included on any copies. So even though the original has this notice required the copies, which are handed over and delivered to the consumer do not have the notice on it.

This amendment is designed to cover any ambiguity in this matter. I urge its passage.

I believe that the experiences have shown that the one day provision that we had previously simply was not long enough for the people to ascertain whether or not they wanted to cancel. Question is on acceptance of the Joint Committees report and passage of the bill. Will you remark, Senator.

SENATOR JACKSON:

Mr. President, this proposal permits state savings and loan associations to invest in mortgage loans without limitation or restriction of statute. Such loans are approved and guaranteed by the agency for International Development such as the International Bank for reconstruction and development, and the Inter-American Development Bank and the Asia Bank for Redevelopment.

If approved for legal investments during this session of the general assembly. Issues of the first two development banks are presently legal for bank investments and these loans will be accorded the same treatment as mortgage loans insured by the Federal Housing Administration. Federal Savings and Loan Associations presently have the authority. This bill has the approval of the State Banking Department.

There are 12 I believe, applications which are in that category. They represent situations which the Department of Agriculture and Natural Resources could approve except the fact that they were received prior to January 1, 1968. We are advised by the Department that the money is available.

Mr. President, the purpose of this bill is to more effectively coordinate Atomic Energy Development in this state. In the existing section of the statutes 19-409, the Governor would appoint a citizen to perform these functions. Such legislative authority has proven basically ineffectual over a period of time since this has been our existing law. The proposal is to place the state planning council in the position of appointing a coordinator for Atomic Development and to place that function within the State Planning Council such as was established in the last session and who's function is planning for all state activities and coordination with many of those activities.

SENATOR BUCKLEY:

Mr. President, this bill removes the bonding provisions from Section 8-129 of the general statutes. Up to this time since the establishment of redevelopment taking laws they were required file a bond by the redevelopment agency assuring that any deficit that was established by a court after an appeal would be paid by the redevelopment agency. Not one bond, to the best of the knowledge of the speaker in Committee has ever been called. Yet in each town around the state, time after time, they paid a fee to the insurance company for obtaining such a bond. Of course, the taking is backed by the full faith and credit of the community as development agencies are a part each city or town in which they are established and therefore, the bonding provision makes no sense.

Mr. President and members of the circle, those of us who knew and worked with Stanley Zabroski, I think in recent history remember him as an outstanding man with several outstanding characteristics. One his very quiet friendly confidence. He was a professional in the highest sense of the word. Knew his trade and was an excellent public relations man and a newspaperman.

The other I think, was his personal courage, because in the past year or so, he had had several severe heart attacks. He has been hospitalized for a considerable length of time. Knew that the attacks were serious and in spite of this he carried on whatever he could. He carried on very much as if nothing had happened and it didn't seem to effect either his disposition or his work in any way. He was truly a remarkable display and brought unfortunate to a very tragic end when he died very suddenly.

WHEREAS, the situation in Northern Ireland has deteriorated to the point where loss of life and property is imminent unless steps are taken to avert a crisis; and by Reverend Patrick Spear

WHEREAS, the primary issue is that a large segment of the adult population is being denied the right to vote, a right that is traditional in western democracies; and do what we ought to do

WHEREAS, former Prime Minister Terrence O'Neill faced overwhelming opposition because of his support of the concept of one man-one vote; and recognize this wrong and do everything possible

to the problem in Northern Ireland, and

BE IT FURTHER RESOLVED, that the members of this assembly urge all the people of Northern Ireland to support all efforts to achieve a just solution to this problem; and

BE IT FURTHER RESOLVED, that a copy of this resolution be sent to U Thant, Secretary General of the United Nations.

SENATOR STANLEY:

Mr. President, I think it goes without saying that the resolution speaks for itself and I think that many of us in this circle recall well that this body did memorialize the ethics of the Israeli troops in the six day war that they have been involved in and should properly be involved in, in problems that face the world and especially this one, because it concerns the one man-one vote concept.

I was struck today by the prayer by Reverend Patrick Speer when he said let us be convinced that freedom is not only a privilege, but also a duty, it is not the right to do whatever we wish to do, but rather it is the right to do what we ought to do. I believe in Northern Ireland a minority is being deprived of their freedom and right to vote and I believe it is appropriate that this body recognize this wrong and do everything possible to help right it. Thank you Mr. President.

Rhode Island passed a similiar bill in the last session of the legislature. I think that it is humanitarian. It provides that the public utilities companies may not terminate service on weekends, holidays and certain other days. Mr. President, this bill does three things. At the present time the overall limitations for investments in mortgage loans is 85 per cent of asset of a savings bank, except that loans in excess of 70 per cent shall be insured a guarantee by the Federal Housing Authority of the Veterans Administration.

The bill will eliminate the insured a guaranteed restriction thus permitting the five per cent of assets to be invested into national mortgages. Subsequently, the maturity of 75

Page 28

April 30, 1969

per cent loans will be extended from 25 to 30 years and the date of the first payment on the loan advanced from 18 to 24 months.

Finally, 90 per cent loans may be made for an amount not exceeding 65,000 as compared to the present limitation of 25,000. The aggregate amount of this loans is extended from 10 to 25 percent of assets on a maturity from 25 to 30 years. The date of the first payment is extended from 12 months to 24 months.

Its a good bill and I move its adoption.

I recall the distinguished jurist that passed away a short while ago, who left Pennsylvania at the time he was serving as a Justice of that Court and came here to correct some mis-representation that were made at that time and I think that once and for all, I trust, that the question of the discovery of America belongs to the great discover Christopher Columbus. While I urge the passage of this bill to set aside this Leif Erikson Day, it pays tribute to the fact that he was a great navigator also. Committee as the official regional planning agency for the Tri-State Region, expired on March 1, 1969; and

WHEREAS, the three states of Connecticut, New Jersey and New York have agreed to pass concurrent legislation extending the Tri-State Compact until July 1, 1971; and

WHEREAS, it is the intention and design of the party states that the work carried out by the commission be continued as it is essential for continuous, coordinated and comprehensive planning in the Tri-State Region to be carried out to assure the continued qualification of the States of Connecticut, New Jersey and New York for federal funds from the United States Department of Transportation, the United States Department of Housing and Urban Development and other federal departments; and

WHEREAS, some questions have been raised by the federal departments as to the goals, work program and organization of the Tri-State Transportation Commission in meeting requirements for federal planning assistance; and

WHEREAS, it is desirable that a thorough review be made of the existing legislation in the light of the federal requirements and the intent and design of the party states;

NOW, THEREFORE, BE IT RESOLVED, that the legislatures of the States of Connecticut, New Jersey and New York, at the request of their Governors and with understanding that similar resolutions will be adopted by each state, do hereby create a special bi-partisan commission, to be known as the interim executive-legislative study commission to consider the role of the

Tri-State Transportation Commission as follows:

1. The Connecticut members of the study commission shall consist of twelve members to be appointed as follows: Four members by the Speaker of the House of Representatives; four members by the President Pro Tempore of the Senate; four members by the Governor, at least one of which will be from appointments to the Tri-State Transportation Commission.

2. It shall be the duty of the study commission to review and study, by means of research and investigation, Tri-State's history, concept, existing federal requirements for continuous, coordinated and comprehensive regional planning, and the future role of the Tri-State Transportation Commission, and to obtain all the facts possible in relation thereto which would not only be of public interest but which would aid the legislatures in the States of Connecticut, New Jersey and New York to enact remedial legislation;

3. The study commission shall utilize the present staff and facilities of the Tri-State Transportation Commission, including authorized travel expenses in connection with the study commission's work, which shall be paid out the appropriations from the three states for Tri-State;

4. The study commission shall elect a Chairman and two Vice-Chairmen from its members, with each of the three states being represented;

5. The study commission or any duly authorized subcommittee thereof is authorized to sit and act at such places and times

during the study period as may be required. A majority of the members of the commission or any subcommittee thereof shall constitute a quorum for the transaction of business.

6. The study commission shall make a full report, together with its findings, to the Governors and to the respective legislatures of the three states at the earliest practicable date, but no later than January 1, 1971.

7. The members of the study commission shall receive no compensation but shall have their expenses paid; and

8. The study commission shall cease to exist thirty days after the transmission of such report to the Governors.

BE IT FURTHER RESOLVED, that this resolution shall take effect immediately upon passage of substantially concurrent resolutions by the State of Connecticut, New Jersey and New York.

SENATOR HICKEY:

Mr. President, I move adoption of the resolution.

THE CHAIR:

Question is on adoption of the resolution. Will you remark.

SENATOR HICKEY:

Mr. President, I believe the resolution is self-explanatory, the Tri-State performed a valuable service over the pass few years with respect to transportation problems in the Metropolitan area. This would simply set up a state program to try, if possible, to improve the functions of Tri-State in the future. I think its a good resolution and I urge its adoption.

THE CHAIR:

Any further remarks on this resolution. If not, as many who are in favor signify by saying aye, contrary minded. The resolution is adopted.

THE CLERK:

The Clerk would remark to clear up some confusion. The House has not been causing to be printed in the files technical amendments. But to clear up the confusion the Clerk of the Senate has ordered this from this week forward. So any technical amendment, whether it be House or Senate will be printed in the files. These bills were in the files and I did not want to pull them out. No further business on the Clerk's desk.

THE CHAIR:

Senator Hickey from the 27th District.

SENATOR HICKEY:

Mr. President, I move we adjourn until 10:30 A.M. tomorrow.

THE CHAIR:

If there is no objections the Senate stands adjourned until 10:30 A.M. tomorrow.

The Senate adjourned at 5:42 P.M. to meet on Thursday, May 1, 1969 at 10:30 A.M.
